Agricultural Building

Copyrighted 1892. A. ZIESE & CO. Chicago.

AGRICULTURAL BUILDING.

HOW TO FIND EXHIBITS.

The immense area occupied by the ground floor of the Agricultural Building has been laid off with a view to offering the readiest facilities to visitors to locate the exhibits. A reference to the ground floor plan will show, plainly marked, four great sections. These are lettered A, B, C and D, and that portion of the ground floor on the west side of the building is known as section E. These five great divisions contain the exhibits from the various states and territories and from some 34 foreign countries and dependencies. The state exhibits occupy nearly the whole of sections C and D on the south side while the foreign countries with a few exceptions claim the major portion of sections A and B on the north. The larger nations such as Great Britain, France, Germany and Canada make exhibits belonging exclusively to the Agricultural Department, but many of the smaller ones, among them Trinidad, the Orange Free State, Liberia, Curacao and Cuba, have in this building been granted most liberal space for the display of what is known as collective exhibits. To locate exhibits on the ground floor the following system has been adopted: Beginning at the center of the building in each section, each column is lettered from "A" down the alphabet, toward the outside of the building. Beginning with the outside, and going toward the center of the building, the columns are numbered from "1" up. The columns in each section are lettered and numbered separately; that is, for example, in each section column "1-A" can be found. The location of an exhibit is indicated by two letters and a figure such as E-E-10, which means that the exhibit having this location sign is installed in section E where the lines of columns E and 10 cross or in other words the exhibit can be found in section E on the west side of the building at the corner of E and 10th streets. The farming tools and machinery exhibitors, some two hundred in number, are all installed in section E.

On the second or gallery floor the same system of dividing the space is carried out as that adopted on the ground floor with this exception that there are only four sections, namely: F, G, H and I. The columns are numbered and lettered on the same plan and exhibits can be most easily located by following the rule given above. The gallery space is almost wholly devoted to United States exhibits. In section H will be found displays of dairy implements, flours and meals, spices and canned goods, the honey exhibits, and bee appliances. In the southwest quarter in section I will be seen exhibits of mineral waters, liquors, cigars and tobacco. Confectionery and chocolate, condensed milk, etc., and the wool exhibit are installed in section G, while section F in the northeast quarter embraces the groups of candles, soaps, etc., phosphates and fertilizing compounds and several exhibits of canned goods, etc.

THE DAIRY BUILDING.

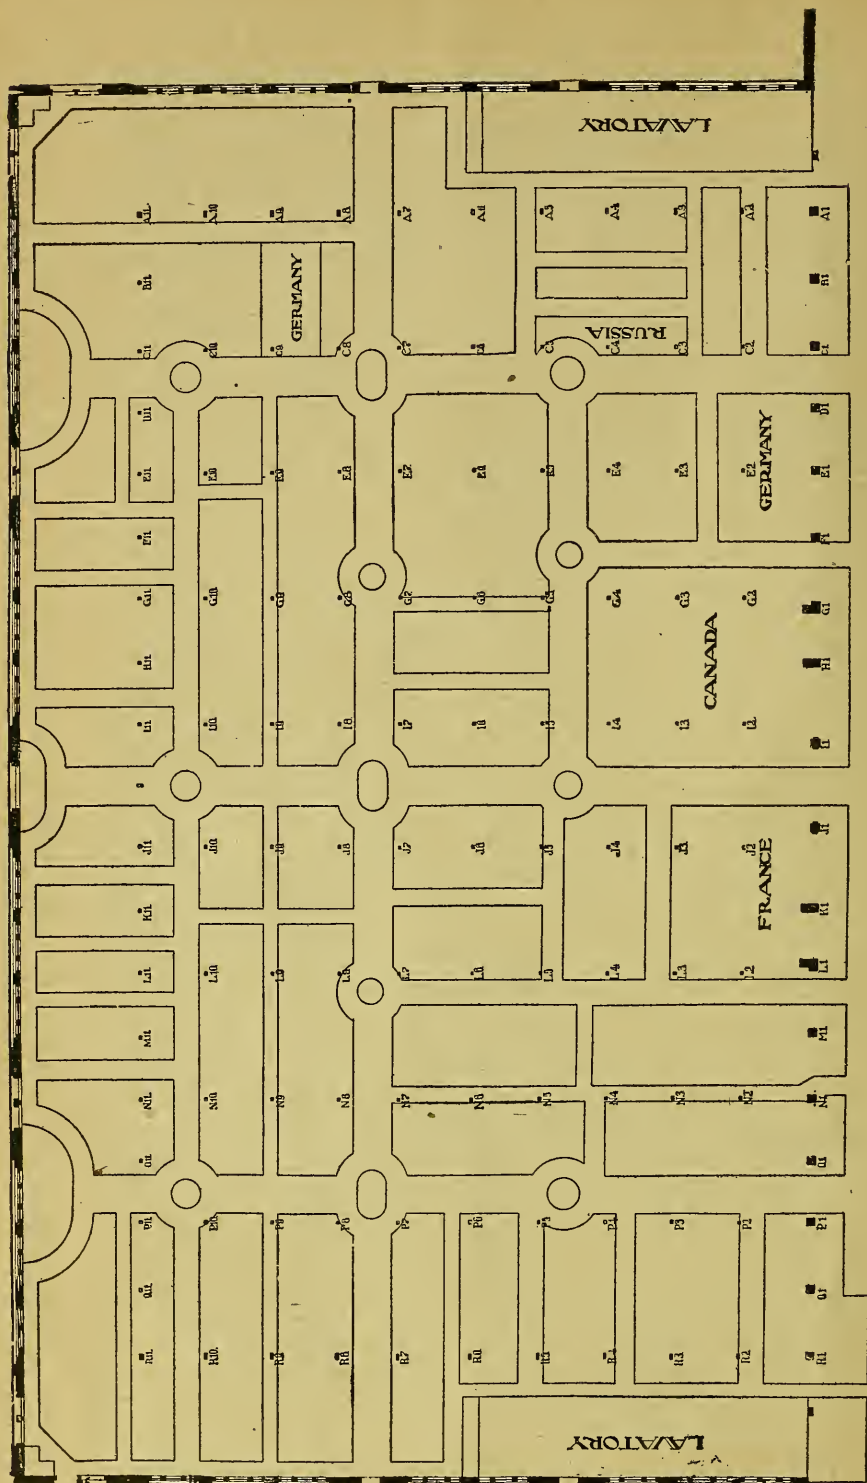

HOW TO FIND EXHIBITS.

The exhibits in this building consist principally of butter and cheese exhibited collectively by the several states named in the accompanying diagram. On the first floor there is in front a large space devoted to the butter display made by nine states and Canada. On three sides of the operating room which extends to the roof there is a gallery where will be found all the cheese exhibits appearing in the Agricultural catalogue. In this great display some five foreign countries have participated. There are a few isolated cases of individual exhibitors in this building, but as previously stated the bulk of the exhibits may be said to be made virtually by the individual states and foreign countries. Both the ground floor and gallery are laid out so that the respective exhibits can be easily located according to the plan of installation shown in the diagram.

Dept. A.--Agriculture, Food and its Accessories.

UNITED STATES.

Exhibit No. Location.

Cereals, Grasses and Forage Plants.

1. American Cereal Co., New York.
Farinaceous foods, etc. F-D-6 & C-6
Manufacturers of cereal foods, Quaker oats,
Quaker buckwheat and the F. Schumacher
cereals. Largest cereal millers in the world.
Also Chicago, Ill., Cedar Rapids, Ia.

6. Conklin, E. W., & Son, Binghamton,
N. Y. Timothy and clover seed. C-A-0
New Patent Process Re-cleaned "Unex-
celled," "Star," "New Process" and "C. &
M." Brands Timothy. "IXL" Clover. Five
purest brands on earth. Only process re-
moving plantain, daisies, pepper-grass,
weed seeds.

8. Dickinson, Albert, Company, Chicago.
a Pop corn. C-E-0
b Agriculture seeds.
c Ensilage.

9. Duluth Imperial Mill Co., Duluth,
Minn. Flour. H-L-8
You will miss one of the sights of this Ex-
position if you don't see the "Old Water
Mill," built 150 years ago, in operation in
the Agricultural Building.

15. Listman Milling Co., Wm., Superior,
Wis. Flour. H-E-5
Manufacturers of the celebrated "Marvel"
brand of flour. Guaranteed to be the best
bread maker in the world. Its economical
features will be readily understood when we
state that it absorbs twenty pounds more
water than any other flour made.

23. Washburn-Crosby Company, Minne-
apolis, Minn. Flour. H-C-5 & H-B-5
A day in the Washburn flour mills. The
method of manufacturing the celebrated
Washburn-Crosby Co. Superlative and Gold
Medal flour. A fac-simile of the Washburn-
Crosby Co. plant.

24. Wilson, Samuel, Mechanicsville, Pa.
Field seeds. C-F-0
Small fruits, rare bulbs, flower plants, etc.

Bread, Biscuits, Pastes, Starch, Gluten, Etc.

27. American Biscuit & Manufacturing
Co., Chicago. Crackers and biscuit.

Offices, New York City, Hamburg, Paris.

311. Aermotor Company, Chicago. Wind-
mills, feed grinders and cutters.

Windmill ex.

For farms, villages, railroads, irrigation and
electric lighting plants. Windmills and
towers all steel, all galvanized. Railroad
and farm tanks, pumps, feed grinders, cut-
ters and water supply fixtures. The origi-
nators of the modern steel windmill, steel
fixed and tilting towers.

319. American Well Works, Aurora, Ill.
a Windmill, pumps. Windmill ex.
b Steam ditcher. E-M-11

320. Ann Arbor Agricultural Company,
Ann Arbor, Mich. E-P-5

a Hay press-

b Hay cutters, horse power and jack.

The credit for this neat exhibit really be-
long to Montgomery Ward & Co., Chicago
agents for the A. A. A. Co. This firm has
an exhibit in this building, as well as an
exhibit of road graders and scrapers in
the Transportation Building. Their sales-
rooms at Michigan avenue and Madison

Exhibit
No.

street, Chicago, cover 9 floors, 150x165 feet,
and contain 750 employees. Their sales are
nearly one million dollars each month,
and the peculiar feature of their business
is that they sell to the out-of-town trade
exclusively. Visitors are invited to inspect
their establishment.

323. Astor, John Jacob, New York. Road
improver. E-E-10

A light two-wheeled machine, with axle
geared to operate a powerful rotary blower
producing an air-blast readily directed by
the driver to entirely remove or deposit at
the side of the road all dust and worn-out
road material.

- 323a. Aultman, Miller & Co., Akron, Ohio.
Binders and mowers, and binder twine.

E-I-9

324. Aultman & Taylor Machinery Co.,
Mansfield, Ohio. E-A-9

a Straw stacker.

b Threshing machines.

c Traction engine.

328. Austin, F. C., Manufacturing Com-
pany, Chicago.

a Steam generator, feed mills and
cutters. E-E-11

b Road machines and rollers.

See the goods marked B at our exhibit in the
Transportation Annex, Section A-10.

331. Bateman, E. S. & F., Greenloch,
N. J.

a Cultivators and plows. E-O-1

b Drills.

"Iron Age" trade mark adopted 1875. Busi-
ness established in 1836.

339. Birdsell Manufacturing Company,
South Bend, Ind. Clover hullers.

E-B-11

340. Bissell Chilled Plow Works, South
Bend, Ind. Plows. E-P-11

Chilled plows, riding plows, gang plows,
patent reversible share plows, "O" series
sloping landside plows.

343. Bowsher, N. P., South Bend, Ind.
Feed mills. E-E-4

Conical shaped grinders. Entire departure
from all others. Lightest running, strongest
and handiest made. With or without bag-
gers. All sizes. Time-proven.

345. Bradley, David, Manufacturing Com-
pany, Chicago. E-J-10

a Plows, cultivators and harrows.

b Stalk cutters.

Makers of "Garden City Clipper" plows and
other agricultural implements for over half
a century. These plows are known the
world over for two things—correct shape
and a uniformly hard temper.

INTERESTING EXHIBITS IN DEPARTMENT A.—AGRICULTURE.

Exhibit
No.

348a. Bucher & Gibbs Plow Co., Canton, Ohio.

- a Plows. E-L-10
- b Harrows.
- c Land rollers.

Imperial chilled and steel, hand sulky and gang plows, all sizes. Steel and wood bar-lever-harrows, tubular land rollers, etc.

350. Cardwell Machine Co., Richmond, Va.

- a Hydraulic cotton and wool baling presses. E-O-1
- b Cotton seed oil mill machinery.

Threshing machines and peanut machinery. Plug and smoking tobacco machinery.

354. Chanler, John A., New York. Method of constructing roads. 62d St. Entrance This system of street construction averages in original cost 40 per cent. cheaper than granite and 20 per cent. cheaper than asphalt. As the rails relieve the street of 70 per cent. of the wear, it is thus more durable than either and less expensive in maintenance. Address Equitable Building, N.Y.

355. Chattanooga Plow Company, Chattanooga, Tenn.

- a Plows. E-E-11
- b Cane mills, evaporators and kettles.

Chilled metal turning plows.

Special patterns for export trade.

373. Deere & Co., Moline, Ill. Plows and cultivators. E-I-11

374. Deering, Wm., & Co., Chicago. Harvesting machinery. E-I-6-7

Manufacture grain binders, reapers, mowers, and grain binder twine. Works the largest of the kind in the world. The original makers of elevator harvesters and first to bring out a successful automatic twine binder. Deering machines are noted for light draft, strength and capacity.

381. Eclipse Wind Engine Company, Beloit, Wis. Windmill. Windmill ex. Eclipse pumping and geared windmills. Beloit steel mills and towers, stock tanks. Creamery tanks. Windmill machinery.

383. Emerson, Talcott & Co., Rockford, Ill. Mowers, tedders, rakes. E-G-7

Also manufacturers of horse corn planters, check rowers, cotton planters, cultivators and side delivery hay rakes.

384. Empire Drill Co., Shortsville, N. Y. Grain drills, plaster sower. E-N-5

390. Famous Manufacturing Company, Chicago. Baling presses. E-P-3

"Champion" baling presses, steam, horse and hand power, for baling hay, straw, cotton, excelsior, shavings, moss, tin and paper scrap, dry goods, fruit, vegetables and all

Exhibit

other balable materials. Largest factory and most complete line made in the world.

392. Farquhar, A. B., & Co., York, Pa. E-E-3

- a Plows, harrows and cultivators.
- b Corn planter and grain drill.
- c Rake separator.
- d Thrasher and vibrator.
- e Corn sheller, portable engine.

394. Flint & Walling Manufacturing Co., Kendallville, Ind. Windmills and attachments. Windmill ex.

Star windmills, steel Star windmills, pumps and water works goods.

396. Foos Mfg. Co., Springfield, Ohio.

- a Corn planters. E-A-4
- b Corn harvesters.
- c Corn shellers.
- d Farm mills and grinders.

399. Gale Mfg. Co., Albion, Mich. Tillage implements. E-F-11

Plows, cultivators, harrows, hay rakes, seeders, etc. 14 first prize medals.

405. Grand Detour Plow Company, Dixon, Ill. Plows, harrows and cultivators. E-G-10

409. Haworth & Sons, Decatur, Ill. Corn planter, check rower. E-E-4

Front and rear covering wheel corn planter, Haworth's. The original check rower, cross and side wires. Drill and fertilizer attachments.

410. Hayes Pump & Planter Co., Galva, Ill. Check row and combined drill planters, shoveling boards, etc. E-R-7

Hayes check row planters.

Eclipse combined planters.

"Boss" and "Daisy" shoveling boards.

Hot water heating apparatus.

414. Higbie, Nathaniel B., Chicago. Oats cleaner. E-R-6

Higbie pat. automatic, with double screens, for private and public stables. Size, 7 feet long, 14 in. wide, 10 in. deep. Built from strictly clear, kiln dried whitewood, with galv. wire screens. Price \$25.00 each. Sent C. O. D. to any part of the U. S. Can be returned same way in 10 days if not satisfactory.

416. Hoover & Prout, Avery, Ohio. a Potato digger.

Greatest in capacity, efficiency and lasting qualities. Separates vines, weeds, etc., from the potatoes; no other digger attempts this.

b Potato sorter and sprouter.

The only sorter on the American market.

423. Joliet Manufacturing Company, Joliet, Ill. Corn shellers. E-E-4

Manufacturers of the "Eureka" and other power corn shellers, horse-powers, etc.

INTERESTING EXHIBITS IN DEPARTMENT A.—AGRICULTURE.

Exhibit No.	Location.	Exhibit No.	Location
426. Kappe, W. J. H., Quincy, Ill.	Hay baling presses. E-R-11	b Reaper, mower and binder, hay rake.	
Manufacture "The Favorite" horse and steam power hay and straw baling presses.		Established 1845. We manufactured the first successful reaper, and to-day our Triumph mowers, reapers and binders are unsurpassed; examine the Morgan horse hay rake. Western office, 248 Johnson Street, Chicago.	
426a. Kelley, O. S., Co., Springfield, Ohio.	Steam road rollers. South of annex	454a. Myers, F. E., & Bro., Ashland, Ohio.	
Sizes, 5 to 15 tons. Excellent machines. Six being used by Columbian Exposition.		a Hay tools. E-L-10	
434. Lean, R., & Son, Mansfield, Ohio.	Harrows. E-Q-11	b Iron pumps.	
Makers of Zigzag, Diamond and lever adjustable tooth all-steel harrows, suitable to all classes of soil throughout the world. Established over twenty years.		Iron force pumps for hand and windmill use; windmill regulators, spray pumps. Reversible hay carriers for wood or single and double steel track. Hay forks, pulleys, etc.	
438. Mast, P. P., & Co., Springfield, Ohio.		461. Osborne, D. M., & Co., Auburn, N.Y.	
a Cultivators. E-N-7		a Harrows. E-J-8	
b Grain drills; seeders.		b Mowers, harvesters, binders, hay rakes and tedders.	
c Hay rakes.		468. Pirch, August, Los Angeles, Cal.	
d Cider mills and hand carts.		Irrigation and ditching plow. E-L-11	
441. McCormick Harvesting Machine Co., Chicago.	Binders, reapers, mowers, drop-pers, etc. E-J-5	All purpose reversible side hill plow.	
McCormick binders, reapers and mowers are used wherever grain and grass are grown. Their sales are enormous, their works turning out a complete machine every minute. They always lead in improvements, and have won the grand prizes at all the World's Fairs and great Expositions ever held.		470a. Pope, R. C., Chicago.	Reversible street and road rollers. South of Annex
447. Milwaukee Harvester Co., Milwaukee, Wis.	Harvester and binder, mowers. E-E-6	Ninety per cent less cost than steam roller. Has proportional diameter overcoming the resistant and pulling forces, reversible tongue, anti-friction bearings. Explodes the old theory that heavier rollers produce the best results. 41 cities have adopted this roller in place of steam rollers.	
We manufacture harvesters, binders and mowers adapted to every market in the world. Unexcelled for durability, simplicity, and lightness of draft. Do not fail to see our exhibit and get catalogue.		477. Reliable Incubator & Brooder Co., Quincy, Ill.	Incubators and brooders. Incubator building.
450. Moline Plow Company, Moline, Ill.		Located south of agricultural building. Dealers in fancy poultry, food and supplies. The only incubator and brooder combined. Write for catalogues.	
a Plows and cultivators. E-C-11		481. Ross, E. W., Company, Springfield, Ohio.	Fodder, straw and cane cutters. E-E-6
Makers of the celebrated Flying Dutchman Sulky Plow. The first three-wheel plow made, and the best plow made to-day. Also riding and walking gangs of all descriptions for every variety of soil.		Oldest and most reliable manufacturers of ensilage cutters and horse powers in the U. S. Ensilage book and catalogue free.	
b Corn planter.		483. Sandwich Manufacturing Company, Sandwich, Ill.	
Makers of the first combined corn planter with drill at no extra charge. Also corn, cotton and beet drills, and riding and walking listers for corn and wheat. See exhibit in agricultural annex, section 13.		a Harvester. E-G-7	
451. Morgan, D. S., & Co., Brockport, N.Y.		b Corn sheller and baling press.	
a Harrows and hoes. E-N-3		Sandwich power corn shellers are made in five sizes, ranging in capacity from 40 to 600 bushels per hour. Capacity of machine shown, 350 bushels per hour. Southwick baling press—machine shown is model one-fourth size. American harvester—the latest. New features of greatest value.	
Morgan spading harrow; the best rotary harrow made; 3 styles, 7 sizes, with seeder attachment. Morgan spading cultivator. Morgan lock lever, spring-tooth harrow. The Morgan grape and berry hoe is indispensable to the vineyardist.		485. Schleicher, Schumm & Co., Philadelphia.	Gasoline engine. I. E. ex.
		Stationary and portable gasoline and petroleum engines.	

INTERESTING EXHIBITS IN DEPARTMENT A.—AGRICULTURE.

Exhibit No.

489. Smalley Manufacturing Company, Manitowoc, Wis. Ensilage and feed cutting machinery. E-E-7

Make a full line of ensilage and fodder cutting machinery, including cutters, all sizes and capacities; prices, \$3 to \$300. Carriers any length and style to suit special silos; powers, 2, 4 and 6-horse sweep; 1, 2 and 3-horse tread; 2, 4 and 6-horse engines. Ensilage pamphlet and catalogue free.

492. South Bend Chilled Plow Company, South Bend, Ind. Plows and cultivators. E-P-11

Walking and riding plows for all nations.

505. Syracuse Chilled Plow Works, Syracuse, N. Y.

- a Plows and cultivators. E-I-10
- b Hay forks.

510. Union Iron Works Co., Newark, O.

Traction engine. Traction engine exhibit Our traction engine is a world beater. More work; less steam; less repairs; easier handled. Patented features. Gearing on independent frame; adjustable friction, saving machinery from strain; automatic governor; double speed, double power; changeable at will from the foot board.

512. Ward, Montgomery & Co., Chicago.

- a Hay stacking and carrying apparatus. E-R-6
- b Corn grinders and shellers and bone grinder.

512. Ward, Montgomery & Co., Chicago.

- a Hay stacking and carrying apparatus. E-R-6
- b Corn grinders and shellers and bone grinder.

The goods here exhibited represent but a few of the many lines manufactured or sold by this firm. Twenty-one years ago we originated the plan of supplying consumers at wholesale. Out-of-town trade only. Capital, \$2,500,000 employees, 750. Receives the largest mail in the U. S. and carry a million dollar stock of goods. Large catalogue given to visitors or mailed for 15 cents. Michigan Ave. and Madison St.

513. Warder, Bushnell & Glessner Co., Chicago. Mower, reaper and harvester. E-L-7

Factory at Springfield, O. The Champion, the latest improved and most novel of grain binders and mowers; light, every way practical, most durable; unlike other machines for this purpose; complete departure from old-time methods. The most interesting exhibit in the agricultural department.

Exhibit No.

513a. Western Wheeled Scraper Co., Aurora, Ill. Road machines, wheeled scrapers and model roads. E-R-1, Sec. C

517. Whitman Agricultural Co., St. Louis.

- a Tread horse power. E-N-5
- b Drill and sower.
- c Baling presses; corn shellers.
- d Cider mills.

Whitman's baling presses. Victorious throughout the world. Have never been beaten in a contest. Manufacture a full line.

520. Wilson Bros., Easton, Pa. Bone mill and cutter. E-A-5

We manufacture bone mills for hand and power. They will grind raw bone, green or dry. For the poultryman, farmer, gardener, fertilizer and manufacturer. Also feed mills. Medals and diplomas awarded wherever exhibited. Send for illustrated circulars and testimonials, or call upon us.

521. Wood, Walter A., Mowing & Reaping Machine Co., Hoosick Falls, N. Y. Harvester, binder, bundle carriers, mowers and hay rakes. E-J-4

Mowers, reapers, binders and hay rakes.

521a. Wood, Walter A., Harvester Co., St. Paul, Minn. Harvesters, binders, bundle carriers, mowers and hay rakes.

E-L-4

Mowers, reapers, binders and hay rakes.

Horticultural Building~

Copyright 1892 H. L. & Co. Chicago

HORTICULTURE BUILDING.

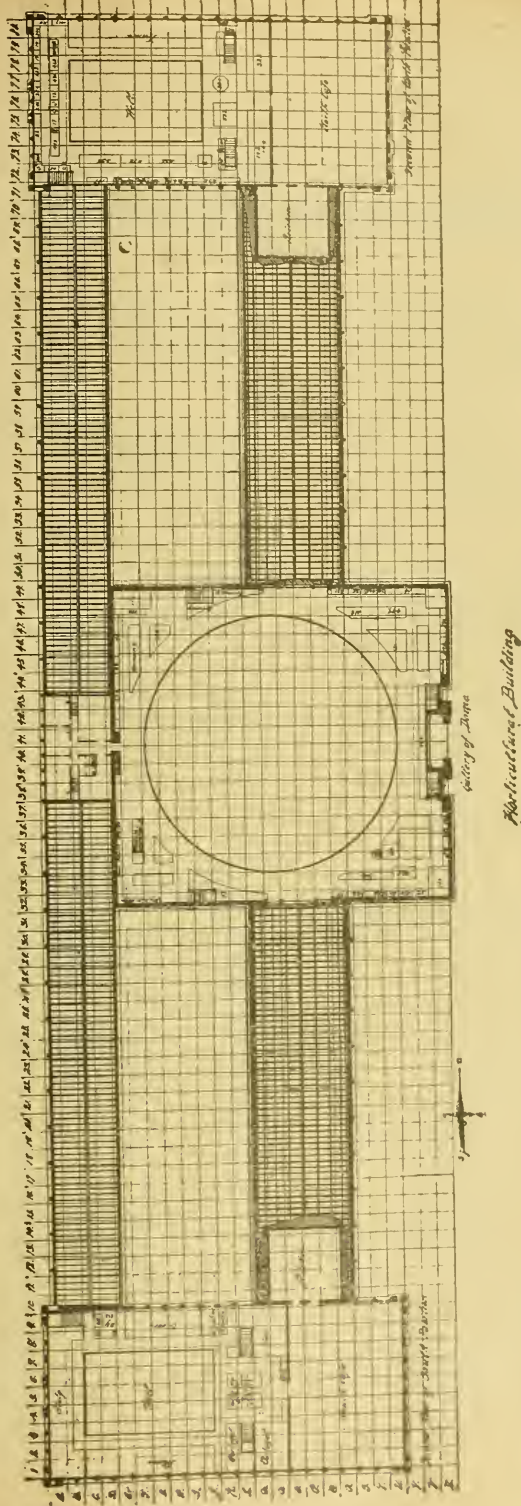

HOW TO FIND EXHIBITS.

As shown by the floor plans of the Horticulture Building, the entire ground floor proper is laid off into sections extending from east to west, and indicated by a number plainly marked at regular intervals on the walls. The floor spaces are crossed from north to south, and lettered from A to Z in regular order, each space being in the form of a square. The numbers on the second or gallery floor are the same as on the first floor. The location of an exhibit will be readily found by referring to the letter and figure placed in juxtaposition, and following it in the catalogue entry, or after the name of a country or state, in the catalogue, and by referring to these in the floor plans.

To better understand the several location terms it would be well to state that the plan of the Horticulture Building is a central pavilion with two end pavilions, each connected with the central one by front and rear curtains forming two interior courts. These locations are frequently referred to in state, foreign and other exhibits.

The United States individual exhibits are located in various parts of the building, according to their nature and character, some on the first floor, some in the gallery, some on the lawns, others on the Wooded Island and many in the nursery near the Midway Plaisance; all these locations are plainly given in the catalogue, and by following above instructions with the diagrams before him, the visitor cannot fail to locate any exhibit without difficulty.

Several of the states have exhibits in this building and they are given herewith, with their location. California S. W. curtain A to E, 31-35 and N. pavilion R-78. Colorado N. W. curtain A-B, 62-65 and N. pavilion S-75, also in Nursery grounds. Idaho N. W. curtain A-B, 51-55 and N. pavilion R-71. Illinois S. W. curtain A-B, 23 to 30. Iowa S. W. curtain D-26 to 30. Kentucky N. W. curtain C-57 and Nursery grounds. Minnesota S. W. curtain. Missouri N. W. curtain A to E, 59 to 62. New Mexico N. W. curtain D-51 to 53. New York, green fruits, etc. are in S. pavilion, dried fruits, preserves, etc. in S. W. curtain, and plants, etc. mainly in Dome. North Carolina has its wine exhibit in the S. pavilion and preserved fruits, etc. in A-56-52. Oregon all exhibits in D-E-62 to 65. The foreign countries making exhibits in Horticulture Building are as follows:—Argentine Republic in Gallery J-9. Canada, green fruit and wines in the S. pavilion; preserved fruits, etc. in the N. W. curtain. Chili, wines, etc. in J-9. France, entire exhibit in D-80, Q-3 and Gallery G-1. Germany has the following locations: M-74, E-28, G-7, Gallery F-46, I-48 and the German wine cellar in south court. Great Britain in R-75 and E-68. Greece, Gallery 6-9 and M-77. Italy A-1 to 20. Jamaica in N. pavilion. Japan in S. pavilion, gallery of dome and N. E. curtain. Mexico in N. and S. pavilions. Netherlands, plants, bulbs, etc. on Wooded Island. New South Wales in V-5, B-37 and P-71. Peru in S. pavilion. Portugal in S. pavilion and gallery L-2. Russia in S. pavilion. Spain in S. pavilion. Switzerland on lawn and Trinidad in E. curtain.

LIVE STOCK
-PAVILION-

COPYRIGHTED 1893 BY
W.B. CONKEY, CO. CHL.

LIVE STOCK PAVILION AND DAIRY BARNs.

As the Live Stock Exhibitions held in connection with the Exposition are not for the whole period of the fair it is not possible to give any key to installation that would be of service beyond the dates on which the various exhibitions take place. A separate catalogue is published for each division in anticipation of the exhibition being held and therein appears the "barn installation" of the entries for that division.

Fish Market Building

FISH AND FISHERIES BUILDING.

HOW TO FIND EXHIBITS.

The exhibits in this building have been so installed as to make it very easy for the visitor to locate any one or any group of them. The central portion of the structure is designated as the main building, and in it will be found the general fisheries exhibit, consisting of boats, seines, etc., and all manners of preserved fish and fish products. In this section the various states have their largest displays, as well as the foreign countries such as Norway, France, Germany, Great Britain, Japan, Mexico, New South Wales, the Netherlands and Russia. The ground floor is laid off into spaces indicated by numbers, 1 to 54 running east and west, and with cross sections running north and south and lettered A to Q. By tracing the lines from the letter to the number any exhibit can be located. In the western pavilion, which is connected with the main building by an arcade, are installed the "fresh water fishing and angling" exhibits, also several entries of canoes, and the entire exhibit of Brazil. In the gallery of the building are several exhibits of a miscellaneous character, among them being a portion of the displays from Norway, Canada and Germany. The gallery floor space is laid off in a similar way to that of the main floor, and exhibits can be as readily located. The eastern pavilion is devoted entirely to the aquaria.

INTERESTING EXHIBITS IN DEPARTMENT D.—FISH, FISHERIES.

Exhibit No.

- e* Turtles and tortoises, mounted.
- f* Aquatic birds, mounted.
- g* Aquatic mammals, mounted.
- h* Charts of fish, oyster and lobster grounds.
- 26a. Japanese Imperial Commission.
 - a* Pictures, photos and other illustrations.
 - b* Lines for tai, mackerel, cod, tunny, etc., beam and pole trawls.
 - c* Hooks for mackerel, tunny, cod, bonito, smelt, etc.
 - d* Nets and haul, dip, circle, drift, gill, etc., seines, cast nets.
 - e* Lobster and prawn pots, bamboo weir, etc.
 - f* Knives, sardine press, appliances, etc.
 - g* Fishing boats for tunny, cod, etc.

MEXICO.

Location—Main P-31

- 4a. Commission Geographica Exploradora, City of Mexico.
 - a* Mounted turtle.
 - b* Mounted seal ("Sea wolf").
- 6. Jalisco, Political Authority of, Poncitlan. Preserved fish.
- 13. Puebla, Government of the State of, Puebla. Preserved fishes.

NETHERLANDS.

Location—Main O-5

- 26. Yzermans & Co., Vlaardingen.
 - a* Gear for herring fishing.
 - b* Vessel, fishermen, etc., illustrating the herring fishery.

NEW SOUTH WALES.

Location—Main F-43

- 1. The Government.
 - a* Paintings and drawings of fishes; fishes in alcohol.
 - b* Reptiles and batrachians, in alcohol.
 - c* Aquatic birds, mounted.
 - d* Aquatic mammals, mounted.
 - e* Crustacea.

Exhibit No.

- 2. Commissioners for New South Wales, Sydney.
 - a* Collection of fishes.
 - b* Oysters, clams, mollusca of all kinds and shells, mutton-fish shells ("Mytilus"), mussel shells, from casino, Richmond river.
 - c* Collection of oil paintings of new South Wales fishes and crustacea (natural size).
 - d* Collection of reptiles.
 - e* Collection of birds destructive to fish. Seals.

NORWAY.

Location—Main K-O-47; Gal. F-14

- 2. Haaland, Lauritz, Stavanger. Paintings of herring and other fisheries.
- 3. Holck, Julius, Bergen. Paintings of whale fishing, etc.
- 5. Bergen Committee, Bergen.
 - a* Maps, drawings and literature illustrating fisheries.
 - b* Fishing gear and lines.
 - c* Nets; seines; models of seines.
 - d* Weirs; lobster pots, eel pots.
 - e* Knives, gaffs; other apparatus.
 - f* Collection of fishing boats; models of vessels.
- 8. Fagerheims Netfabrik, Bergen. Nets; seines; apparatus.
- 10. Henriksen, H., Tönsberg. Guns, harpoons and equipment for whales and porpoises.
- 14. Johnsen, John, Bergen. Fishing boats.

RUSSIA.

Location—Main K-34

- 8. Astrakan Fisheries District.
 - a* Isinglass.
 - b* Fish oils.
- 20. Stepanenko, Rostov on Don.
 - a* Dried sturgeon, steak, etc.
 - b* Caviar.
 - c* Viasiga (spinal cord of sturgeon).

Mines and Mining Building

Copyrighted, 1894, by Zeese & Co., Chicago

MINES AND MINING BUILDING.

HOW TO FIND EXHIBITS.

For the purpose of indicating the location of exhibits in the Mines Building, the columns extending north and south are numbered from 1 to 34 as shown in the diagram, and those extending east and west are lettered from "A" to "U." By this system, each exhibit on the main floor or the gallery has a position of longitude and latitude. For example, the exhibit of Great Britain is located on the main floor at "G-16," or at that point where a line drawn from column "G" would intersect with a line drawn from column "16." The columns are plainly lettered and numbered. The location of each exhibit is indicated by a letter and a number, and exhibits in the gallery are distinguished by the letter "g" following the letter and number. The various state exhibits have special locations as follows: Arizona Sec. Q, 30, California Sec. N, 24, Colorado Sec. N, 30, Connecticut Gallery T, 19, Florida Gallery S, 29, Idaho Sec. N, 26, Illinois Gallery T, 10, Indiana Sec. N, 14, Iowa Sec. P, 33, Kansas, Sec. Q, 3, Kentucky Sec. N, 11, Louisiana Sec. Q, 10, Maine Gallery B, 7, Massachusetts Gallery B, 11, Michigan Sec. G, 16, Minnesota Sec. Q, 12, Missouri Sec. N, 19, Montana Sec. N, 29, Nevada Sec. B, 10, New Hampshire Sec. S, 30, New Jersey Sec. Q, 9, New Mexico Sec. Q, 28, New York Sec. N, 9, North Carolina Sec. Q, 5, Ohio Sec. N, 12, Oregon Sec. Q, 8, Pennsylvania Sec. N, 6, South Carolina Gallery T, 6, South Dakota Sec. N, 23, Tennessee Sec. Q, 10, Utah Sec. N, 27, Vermont Gallery S, 17, Virginia Sec. Q, 6, Washington Sec. Q, 25, West Virginia Sec. M, 8, Wisconsin Sec. N, 21 and Wyoming Sec. Q, 23. The foreign countries will be found installed as follows: Argentine Republic Sec. B, 23, Austria Sec. B, 7, Bolivia Sec. B, 28, Brazil Sec. G, 24, Canada Sec. B, 11, Cape of Good Hope Sec. G, 25, Chile Sec. D, 31, Ecuador Sec. A, 28, France Sec. G, 6, Germany Sec. MACHINERY HALL.

HOW TO FIND EXHIBITS.

The exhibits in the Machinery Department are installed in Machinery Hall proper, in the Power Station, Pump House, Machine Shop, Saw Mill Building, Boiler House Extension, Oil Pump House, in an out-of-door space near the main building and several will be found in the Fire Engine Houses, Power House of Elevated Railway and at other points on the Exposition grounds. For the purpose of installation the main building is divided into numbered sections as shown on the plan. The columns are lettered from south to north, from A to T, and from east to west they are numbered from 1 to 53, consequently each column bears both a letter and a number. This letter and number in the catalogue location signs is prefixed with the section number, hence the following: 26-M-31 means that the exhibit having that location sign is installed in section 26 near the column bearing the letter M on the north and south line and 31 on the east and west line. The Boiler House on the south of the main building has six numbered divisions, and the Boiler House extension has five sections lettered A to E. The power plant is also divided into sections lettered from A to O. The foreign countries, some fourteen in number, will all be found in the east end of the building between F and R on the north and south line and 1 to 25 on the east and west. In the location of exhibits in the catalogue entries, the following abbreviations are used: "PP."—Power Plant; "PS."—Power Station; "PH."—Pump House; "MS."—Machine Shop; "ODS."—Out Door Space; "LS."—Line Shaft; "SMB."—Saw Mill; "BH."—Boiler House; "BHE."—Boiler House Extension; "OPH."—Oil Pump House; "FEH."—Fire Engine Houses; "PH of E. Ry."—Power House of Elevated Railway; "MP."—Midway Plaisance; "B. S. Ry."—Barre Sliding Railway; "W. D. R. R."—Western Dummy Railroad; "SCW."—Sewage Cleansing Works.

- 17. Valls Hermanos, Barcelona. Press for making pastes and vermicelli; chocolate grinding machines, etc.

Transportation Building

Copyright 1892 A. C. Case & Co. Chicago

TRANSPORTATION BUILDING.

HOW TO FIND EXHIBITS.

For the purpose of the installation of exhibits the Transportation Building and Annex are divided into sections, lettered from "A" to "Z." Section "A" is the north end of the Annex; section "B" is the north end of the main building; sections "C" and "D" form the central court, and "E" the south end of the main building. The remaining sections are in the Annex, and consist of aisles running the length of the Annex. Along each aisle is a row of posts, numbered, and the sides of the aisles are indicated as "north" and "south." Thus, an exhibit located in the catalogue at "O-N 9 and 10," is on the north side of aisle or section "O," between posts numbered 9 and 10. The sections in the main building are divided into blocks, and the two rows of columns extending the length of the building are numbered. An exhibit located at "A-8" is in section "A," block 8. An exhibit located at "B-4-3," is in section "B," block 4, opposite column 3. These divisions and blocks appear on the plan in this catalogue.

The entresol or gallery floor is divided into seven sections, lettered from "A" to "G." The columns are numbered. Exhibits in the gallery are indicated by the abbreviation "Gal." An exhibit located "E gal. 42" is in gallery section E, opposite or near column 42.

There are three general divisions of exhibits in this department: The railway, marine and the vehicle divisions. For the most part the railway exhibits will be found in the annex. The vehicle exhibits occupy the northern end of the main building and the annex; the marine exhibits, a portion of the southern-central part of the main building and the southern portion of the east gallery; the bicycle and saddlery exhibits, the northern gallery. The exhibits of each foreign country are, however, grouped in one location.

On entering the building at the golden door, the visitor finds first at his right the exhibit of Great Britain. The English railway exhibit is located in the annex in sections U and V. North of the British exhibit will be found those of Canada, Brazil, Mexico and a portion of that of Spain. Then come some American railway exhibits and the American vehicle section.

Returning again to the golden door, the visitor turning to the left will observe the French section, including a large display of vehicles and railway machinery.

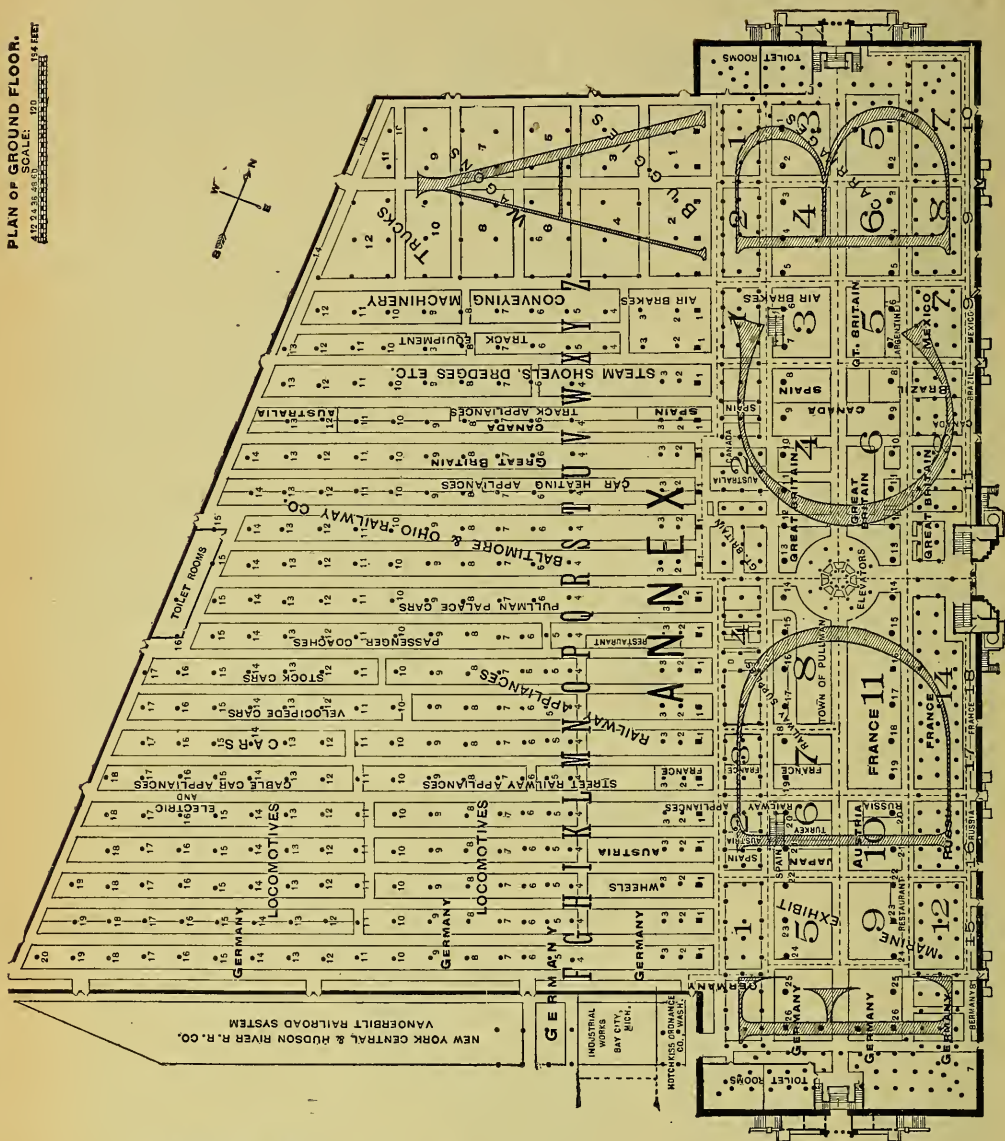

Immediately to the south of the French space will be found the exhibits of Russia, Austria, Turkey, Spain and Japan. Following these, to the south, is the principal portion of the American marine exhibit. The entire south end of the main building and the annex is devoted to the exhibit of the German empire.

The main portion of the annex, from the English exhibit in Section U to the German exhibit in section G, is occupied by a vast collection of American cars, locomotives and railway appliances of every possible description, and a considerable portion of the main building is also devoted to railways.

Beginning at the north and occupying very nearly the center of the annex is the exhibit prepared by the Baltimore & Ohio Railway Co. To the south of this is an exhibit of two trains of Pullman palace cars. Following this exhibit are passenger cars, various forms of freight, street and tram cars and an exceedingly large variety of locomotives representing every locomotive building establishment in the United States but two.

The south end of the gallery is occupied by a comprehensive exhibit by the associated engineering societies of Germany. The southern portion of the east gallery is devoted to marine, and the northern to bicycles. The north end of gallery is devoted to saddlery. The northwestern gallery belongs to the British section and contains bicycles and interesting loan exhibits. The southwestern gallery includes the marine and engineering divisions of the French section, the Netherlands and the Cape of Good Hope.

The large exhibits of the New York Central Railroad and the Wagner Palace Car Co. are south of the Annex, and the extensive exhibit of the Pennsylvania Railroad is still further south across the street leading to the 64th street entrance. Both of these companies have buildings, besides their out-of-door exhibit.

MANUFACTURES AND LIBERAL ARTS BUILDING.

DEPARTMENT OF MANUFACTURES.

HOW TO FIND EXHIBITS.

The Department of Manufactures occupies all of the ground floor of the Manufactures and Liberal Arts Building, except Section I, in the southeast corner, which is occupied by the Department of Liberal Arts. The Manufactures department also occupies gallery Sections F and G. The main floor is divided into sixteen sections, lettered from A to Q, and each section is divided into four blocks, numbered from 1 to 4, except Sections A, I, H and Q, which have three blocks. By consulting the ground plan in this catalogue these floor divisions can be located. The exhibits in manufactures are installed by classified groups, collectively, and the location of each group is indicated under the group head in the catalogue. For example, all the exhibits of jewelry, embraced in Group 98, are installed in Section N, Block 1 and Section O, Block 1. All silk goods, classified as Group 100, are in Section O, Block 1. The location of the foreign countries is indicated under their headings in the catalogue.

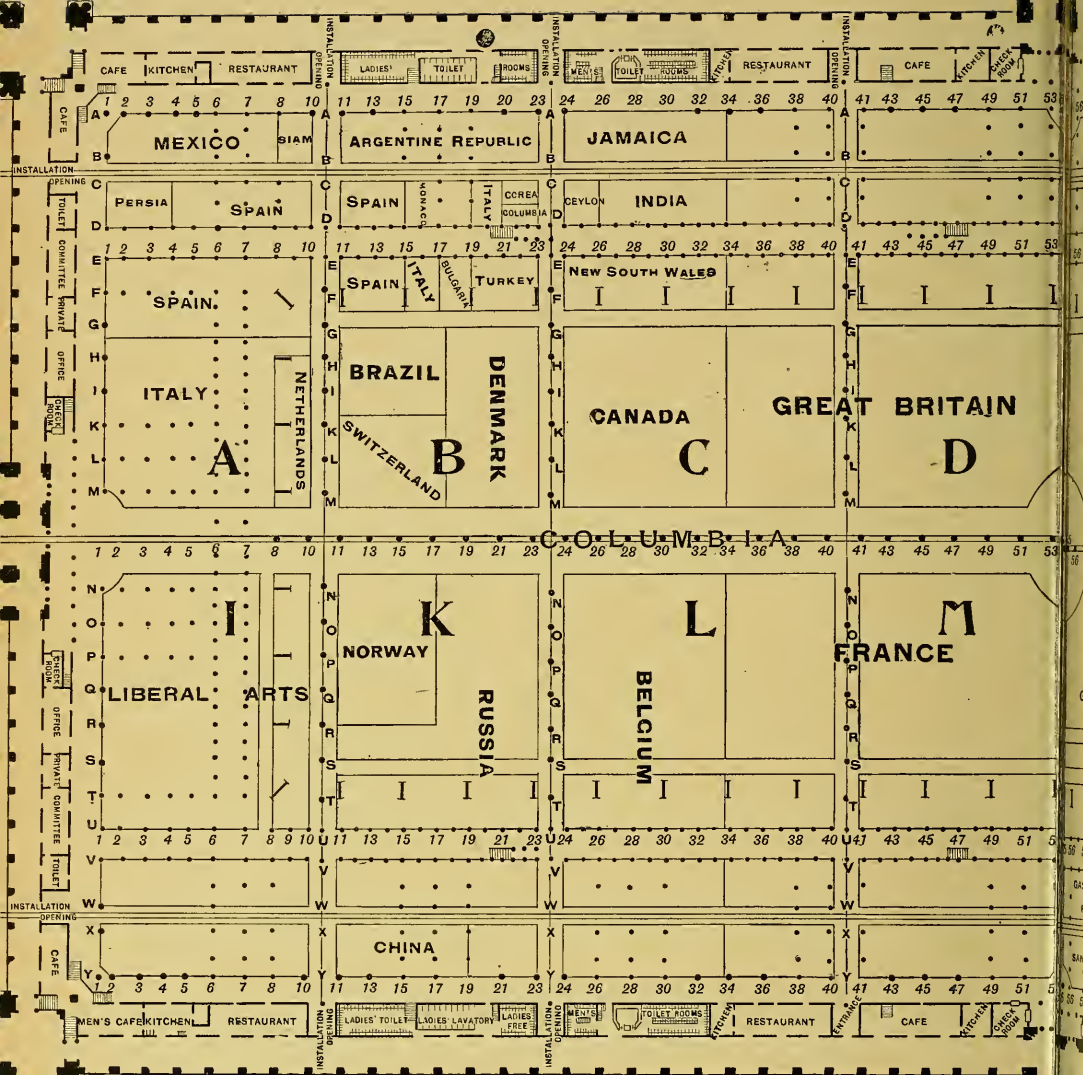

On reference to the diagram of the ground floor it will be seen that several of the exhibits by classified groups are given. Wherever they appear, that is the location of the group. The foreign countries, too, are marked on the plan where their exhibits are installed. As an aid to the diagram and an additional help to the visitor, the location of the several classified groups are given herewith, all of which will be self-explanatory.

Chemical and pharmaceutical products and druggists' supplies are installed, with two exceptions, in Section Q, Block 1. Paints, colors, dyes and varnishes in Section H, Block 1, Section G, Block 2, and Gallery F-4. Typewriters, paper, blank books, stationery in Section G and in Gallery, Sections F and G. Furniture of interiors, upholstery and artistic decorations in Section N, Blocks 1, 2 and 3, Section O, Block 2, Section P, Block 2, and Section Q, Block 1, and Gallery F and G. Ceramics and Mosaics in Sections H, O and N, and Gallery F. Marble, stone and metal monuments, mausoleums, mantels, etc., caskets, coffins and undertakers' furnishing goods in Sections H, Block 2, and N, Block 1. Art metal work—enamels, etc., in Sections G, Block 3, H, Blocks 1 and 2, and N, Block 1. Glass and glassware in Sections H, Block 1, N, Block 1, and Gallery F, Blocks 1 and 13. Stained glass in decoration in Sections N, Block 1, H, Block 1, and Gallery, Section F. Carvings in various materials in Sections N, Block 1, and P, Block 2. Gold and silverware, plate, etc., in Section N, Block 1, with one exception. Jewelry and ornaments in Section N, Blocks 1, and Section O, Block 1. Horology, watches, clocks, etc., in Section O, Block 1, with one exception. Silk and silk fabrics in Section O, Block 1, with two ex-

ceptions Fabrics of jute, ramie and other vegetable and mineral fibres in Gallery, Section F, Blocks 12 and 14. Yarns and woven goods of cotton, linen and other vegetable fibres in Sections O, Block 1, P, Block 1, and Gallery, Section F. Woven and felted goods of wool and mixtures of wool in Section P, Block 1, except Classes 646 (upholstery goods) and 649 (carpets), which are installed in Gallery, Sections F and G. Clothing and costumes in Section P, Block 1, N, Block 1, and Gallery, Sections F and G. The Merchant Tailors' exhibit is in a special building. Furs and fur clothing in Section G, Block 1. Laces, embroideries, trimmings, artificial flowers, fans, etc., in Section N, Block 1, and Gallery, Sections F and G. Hair work, coiffures and accessories of the toilet in Gallery, Sections F and G. Traveling equipments, valises, trunks, toilet cases, fancy leather work, canes, umbrellas, parasols, etc., in Section N and Gallery, Sections F and G, with one exception. Rubber goods, caoutchouc, gutta percha, celluloid and zylonite in Gallery, Section G. Toys and fancy articles in Gallery, Sections F and G. Scales, weights and measures in Section Q, Block 1. Material of war; ordnance and ammunition; weapons and apparatus of hunting, trapping, etc.; military and sporting small arms in Sections Q, Block 3, P, Block 4, and N, Block 1. Lighting apparatus and appliances in Section N, Blocks 1 and 3. Heating and cooking apparatus and appliances in Sections O, Blocks 3 and 4, N, Block 4, and P, Block 4. Refrigerators, hollow metal ware, tinware, enameled ware in Sections P, Blocks 3 and 4, H, Block 3, G, Block 4, O, Block 2, and N, Block 4. Wire goods and screens, perforated sheets, lattice work, fencing, etc., in Section Q, Blocks 2 and 3, H, Block 3, and N, Block 1. Wrought iron and plain metal exhibits in Sections G, Block 4, H, Block 3, P, Block 4, and N, Block 1. Vaults, safes, hardware, tools, cutlery in Sections P, Blocks 3 and 4, O, Block 3, Q, Block 2, and Gallery, Section F. Plumbing and sanitary materials in Section N, Block 4. Miscellaneous articles of manufacture in Sections P, Block 4, Q, Block 1, and Gallery, Sections F and G.

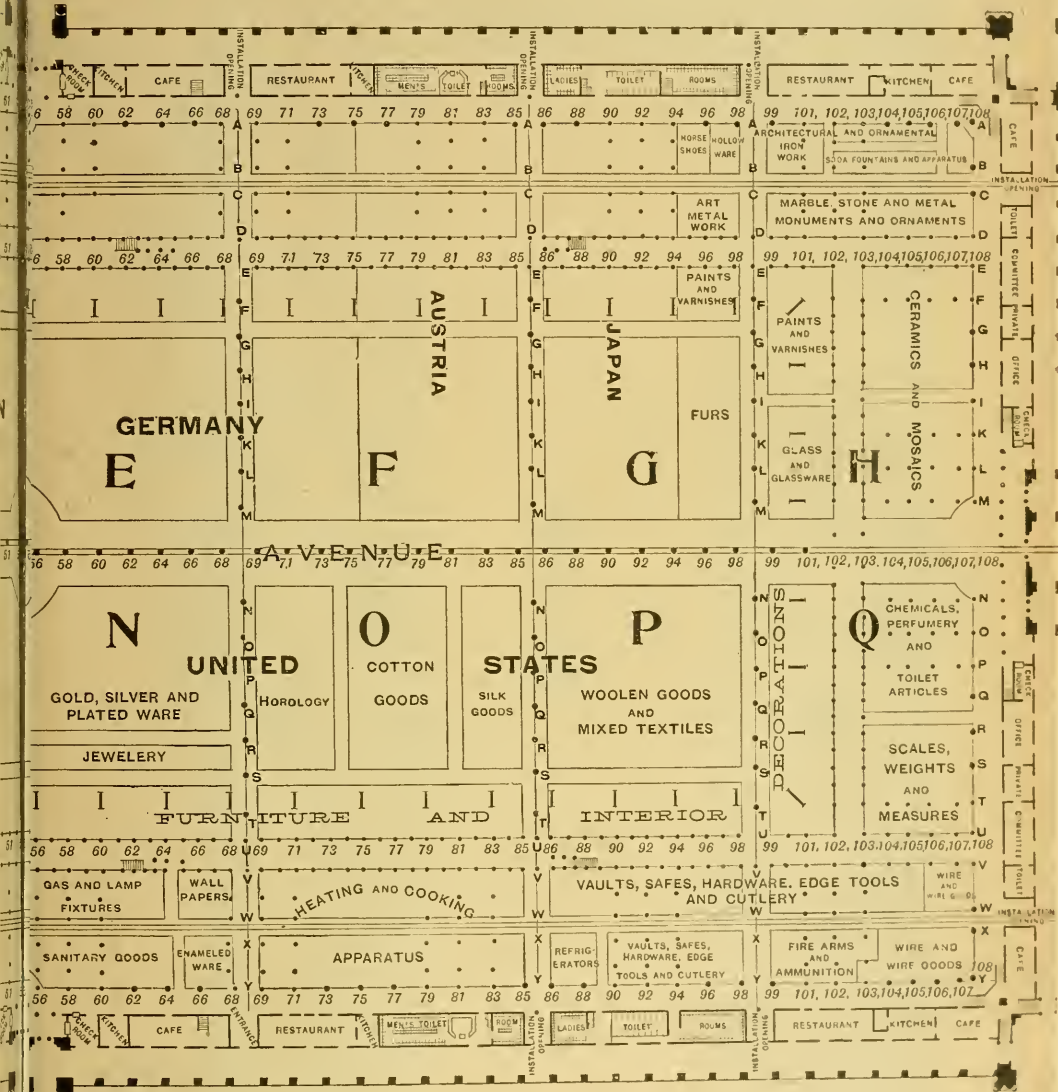

The collective exhibits of the New England Manufacturing Jewelers' Association is located in Sec. O-1 and that of the United States Potters' Association is located in Sec. Q-1. The Merchant Tailors' exhibit is installed in a special building situated on the lagoon, N. W. of the Fish and Fisheries Building and the Women's Department in Manufactures has its exhibits installed as shown in the diagram in Sec. F, 6 and 11. The location of the foreign countries are as follows: Argentine Republic, Sec. B, Block 4; Austria, Secs. C and D and F, Blocks 1, 2, 3, 4; Belgium, Sec. L, Blocks 1, 2, 3, 4; Bulgaria, Sec. B, Block 2; Canada, Sec. B and Sec. C, Block 1; Ceylon, Sec. C, Block 3; China, Sec. K, Block 4; Korea, Sec. B, Block 3; Denmark, Sec. B, Block 1; France, Sec. H and Secs. M and L, Blocks 1, 2, 3, 4; Germany, Secs. A and C and Secs. E and F, Blocks 1, 2, 3, 4; Great Britain, Sec. B and Secs. C and D, Blocks 1, 2, 3, 4; India, Sec. C, Block 3; Italy, Secs. A, C and D, Blocks 1 and 3; Jamaica, Sec. C, Block 4; Japan, Sec. G, Blocks 1, 2, 3, 4; Mexico, Sec. A, C and D, Block 3; Monaco, Sec. B, Block 3; Netherlands, Sec. A; New South Wales, Secs. B and C, Block 2; Norway, Sec. K, Block 1; Persia, Sec. A, Block 2; Russia, Secs. D and K, Blocks 1, 2, 3, 4; Siam, Sec. A, Block 3; Spain, Sec. A, Blocks 1 and 2 and B, Blocks 2 and 3 and Switzerland, Sec. B, Block 1.

LEATHER AND SHOE TRADES BUILDING.

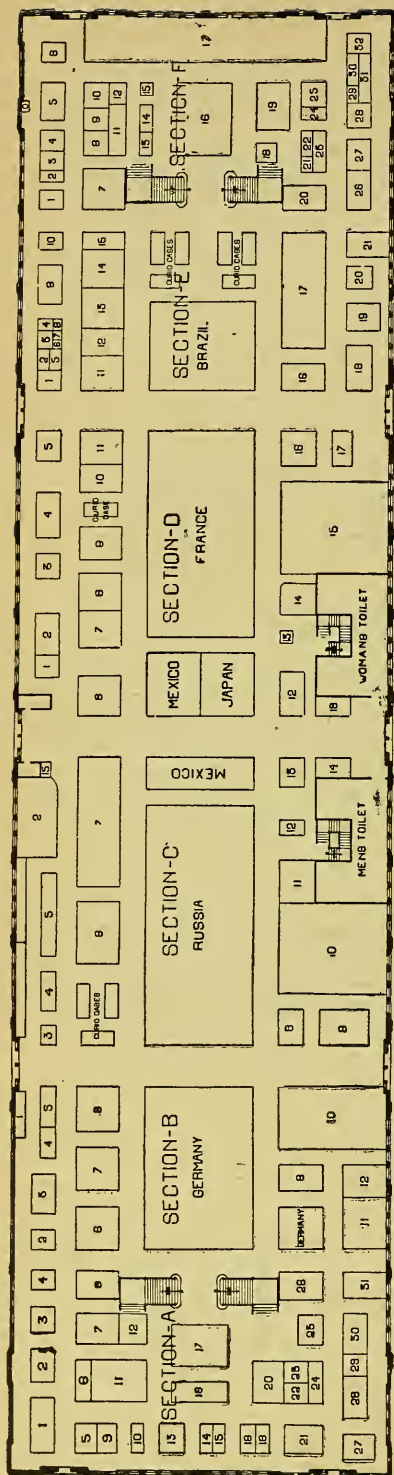

HOW TO FIND EXHIBITS.

For the purpose of the installation of exhibits, the Leather and Shoe Trades Building is divided into sections, lettered from A to F on the first floor, and from A to K on the second floor. Each section is numbered from 1 up, according to the number of the exhibit spaces, each exhibit space being given one number. The foreign countries occupy the central portion of the building, and their locations are fully shown on accompanying diagram.

The building contains all the domestic exhibits of leather, boots and shoes, rubber boots and shoes and of the allied trades also the exhibit of leather in all forms, from all the foreign countries, among them being France, Germany, Russia, Uruguay, Japan, Mexico and Brazil.

There are also shown here leather curios from the different countries of the earth, such as native foot gear, clothing, harness, saddles and such articles from museums and private collections as have been made famous by age or association.

The entire second floor is devoted to machinery, which includes the manufacturing exhibit and shoe and leather working machinery, as well as "Dead Exhibits" made by the representative manufacturers of shoe machinery throughout the United States.

LEATHER AND SHOE TRADE BUILDING.

KRUPP PAVILION.

Krupp's Pavilion.

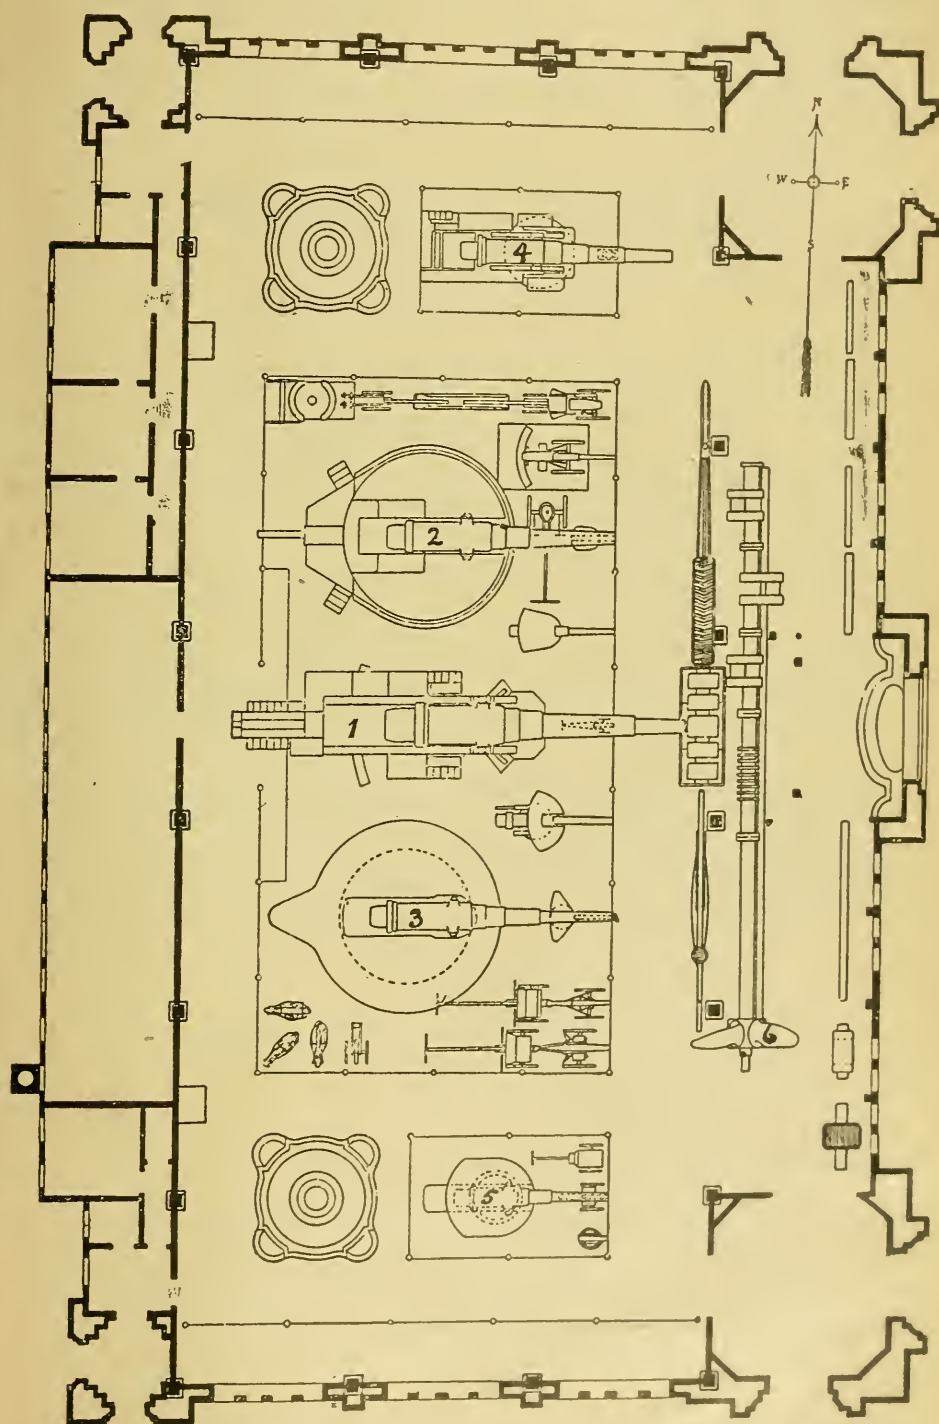

Main Hall 60 metres long, 25 m wide, 13 m high.
(196,85') (82') (42,65')

Entrance Hall 42 m long, 7,5 m wide, 9 m high.
(137,8') (24,6') (29,5')

THE Pavilion is situated on the lake front, between the Leather and Shoe Trades Building and the Convent of La Rabida, with public entrances at the north and south ends, and is open to visitors, free of charge. The pavilion is 85 feet by 300, with wings on each side running the length of the building and 25 feet wide. The east wing is given up to the various kinds of steel exhibits and the west wing to offices. The main building is devoted to guns, big and little, slow firing and quick, for marine and land batteries.

The pavilion was designed by HEINRICH THEODOR SCHMIDT, of Frankfort on the Main, Architect; the iron construction was executed by the GUTEHOFFNUNGSHÜTTE of Oberhausen (Rhine Province). The sculptures and stucco work were designed and executed by J. MÜLLER of Aix-la-Chapelle, Sculptor. The wrought iron stand in the entrance hall was designed by FR. HALMHUBER of DÜSSELDORF, Architect.

IN

Krupp Pavilion.

KRUPP, FRIED, ESSEN, RUHR.

Exhibit
No.

1. 42 em (16.54'') The Big Coast Gun L/33 to front pivot coast carriage.

Weight of barrel with breech closure, 122,400 kilos (tons 120.46). The big gun is 46 feet long, with a 42-centimeter bore, and fires an explosive shell weighing 3,300 pounds. This is the largest gun in the world.

2. 30.5 em (12.01'') Gun L/35 in Hydraulic Ship Carriage.

This gun serves for arming men-of-war and large armored vessels. Weight of barrel with breech closures, 62,450 kilos (61.46 tons).

4. 24 em (9.45'') Coast Gun L/40 C 86 in Center Pivot Coast Carriage.

The gun is intended for engagements of coast defenses against ships. It fires a projectile of 215 kilos (474 lbs.) with an initial velocity of 700 m (2,400).

Exhibit
No.

5. 21 em (8.26'') Gun L/35 in Centre Pivot Ship Carriage.

This is one of the most useful guns for ships. It is manned by hand or by electricity. It throws a projectile of 140 kilos (308 lbs.), with an initial velocity of 646 m (2,119').

19. Collection of Projectiles.

- 20, 21. Compound Armory Plate.

- 22, 23, 24. Nickel Steel Armor Plates.

33. Screw Shaft, Thrust Shaft, and Crank Shaft of Open-hearth Steel.

Total weight of the three shafts exhibited 105,000 kilos (tons 103.34); total length of same, 27.5 m (90 feet).

56. Rudder frame of molded steel casting. Weight 11,300 kilos (11,12 tons).

56. Ship's screw or propeller of molded steel casting.

Electrical Building

W. L. & Co. New York

ELECTRICITY BUILDING.

HOW TO FIND EXHIBITS.

For the purpose of the installation of exhibits, the Electricity Building is divided into sections, lettered from "A" to "Z." On the main floor the sections are lettered from "A" to "Q," and on the gallery floor from "R" to "Z." The sections are divided into exhibit spaces, which are numbered, and in some instances are subdivided when the exhibit space is designated by the addition of a letter, as, for example, U-13-b. By consulting the floor plan in this catalogue the sections can be easily located. The location of exhibits are indicated in the catalogue by a letter and a number. For example, "V-5" means that the exhibit is in section "V," which is in the gallery, and exhibit space 5.

The United States exhibits will be found principally in sections A, B, C, G, H, I, L, M, and N, on the ground floor and R, S, T, U, in the gallery. The following are the locations of foreign countries as they appear in the gallery and on the main floor: Austria in Y, 38; Brazil in V, 1; Canada in the rooms of American Institute of Electrical Engineers in section S; France in K, 1, Q, 1 and 2 and Y, 3; Germany in D, 1, E, 1, Y, 5 and 6 and X, 1 and 2; Great Britain in O, 5; Italy in T, 4 and Japan in F, 1a.

Art Palace

Copyright 1897, A. Zappa & Co. Chicago

ART PALACE.

HOW TO FIND EXHIBITS.

The exhibits in the Art Palace are installed as follows:

UNITED STATES:—**Sculptures** are principally in the North Court of the Central Pavilion, with examples also in the West Court, in the Rotunda and in Gallery 38, between the Central and East Pavilions. **Oil Paintings** are in Galleries 1, 3, 5, 6, 7, 8 and 9 of the North-east quarter of the Central Pavilion; in connecting galleries 37, 38 and 39, between the Central and East Pavilions, in Gallery 40 of the East Pavilion and in the second floor alcoves on the North side of the East Court and the West and East Sides of the North Court, Central Pavilion. **Water Colors** are in the second floor alcoves at the North end of the North Court, Central Pavilion. **Pastels** are in the second floor alcoves 125 and 126, on the South side of the East Pavilion. **Drawings** in pencil, black and white, pen and ink, etc., are hung in the four circular stairways about the rotunda, on the East wall of the North Court (ground floor), in the alcoves and panels at the West end of the East Court (ground floor), and on screens in the second floor alcoves on the South side of the West Court. **Etchings** occupy the second floor at the South end of the North Court. **Wood Engravings** hang on screens in second floor alcoves on the South side of the West Court. **Architecture** is represented by casts at the east end of the West Court (next to the rotunda) and by drawings in the second floor alcoves on the South side of the West Court. The Loan Collection of Foreign Masterpieces owned in the United States (mostly oil paintings) is in galleries 40, 41 and 42 in the West Pavilion.

AUSTRIA:—**Sculptures and Oil Paintings** are installed in Galleries 35 and 36, in the North-west corner of the Central Pavilion, and in connecting Gallery 59, between the Central and East Pavilions. **Water Colors, Etchings and Engravings** are in gallery 59, and in Alcove 103, West Court of Central Pavilion.

BELGIUM:—**Sculptures and Oil Paintings** are in Galleries 63, 64, 65, 66 and 67 West Pavilion, and in second-floor alcoves 128, 131, 132, 133 and 134 in the East and South Courts of the Central Pavilion (turning at the rotunda). **Water Colors, Etchings, Engravings, etc.,** are in second floor alcoves 133 and 134 on the East side of the South Court Central Pavilion.

BRAZIL:—**Sculpture** is in the center of the West Court, Central Pavilion. **Oil Painting** in the second floor alcoves on the West side of the South Court, Central Pavilion.

CANADA:—**Oil Paintings and Water Colors** are in Galleries 10 and 11 in the South-east quarter of the Central Pavilion.

DENMARK:—**Sculptures and Oil Paintings** are in Galleries 73, 74 and 75 in the West Pavilion, and in the second floor alcoves at the South end of the South Court, Central Pavilion.

FRANCE:—Sculptures in South Court, West Court and Rotunda of the Central Pavilion; in rotunda and galleries 45, 53, 56, 57 and 58, East Pavilion. **Oil Paintings** in galleries 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56 and 57 of the East Pavilion. **Water Colors and Pastels** in Galleries 46, 47 and 48, East Pavilion. **Medals, etc.,** in Galleries 46 and 47 East Pavilion. **Architecture** in the alcoves of the East Court (Main Floor.) **Historic Sculptures** in the East Court, Central Pavilion.

GERMANY:—Sculptures in the North and West Courts, Rotunda and in the German Galleries devoted to painting, Central Pavilion. **Oil Paintings** in Galleries 28, 29, 30, 31, 32, 33 and 34 in the North-west quarter of the Central Pavilion. **Water Colors, Drawings, Etchings, Engravings, etc.,** in the second floor alcoves on the North side of the West Court. **Architecture** in the first and second floor alcoves on the North side of the West Court. Architectural models in the center of the West Court, Central Pavilion.

GREAT BRITAIN:—Sculptures in the East half of the South Court and in the Rotunda, Central Pavilion. **Oil Paintings** in Galleries 12, 13, 14, 15, 16, 17 and 18 in the South-east quarter of the Central Pavilion. **Water Colors** in Gallery 16 and Alcove 89. **Pastels, Drawings, Etchings, Engravings, etc.,** in the second floor alcoves on the South side of the East Pavilion.

HOLLAND:—**Oil Paintings** in Galleries 25, 26 and 27 in the South-west quarter of the Central Pavilion. **Water Colors** in Alcoves 99 and 100, West Court. **Etchings,** Alcove 101 West Court, Central Pavilion.

ITALY:—Sculptures and **Oil Paintings** in galleries 76, 77, 78, 79 and 80 West Pavilion. **Ancient Sculptures, Water Colors and Engravings** in connecting galleries 60 and 61, between the Central and the West Pavilion.

JAPAN:—Sculptures, **Paintings, Bronzes, Porcelains, Textiles, Embroideries, etc.,** in gallery 24 and alcove 98, West Court, Central Pavilion, and in upper floor alcoves in the North, South, East and West Courts bordering upon the rotunda.

MEXICO:—Sculptures in the East end of the East Court, Central Pavilion. **Oil Paintings** on the stairways at the East end of the East Court, and in the second floor alcoves at the East end of the East Court, Central Pavilion.

NEW SOUTH WALES:—**Oil Paintings** in the second floor alcove 135, in the South-east corner of the South Court, Central Pavilion.

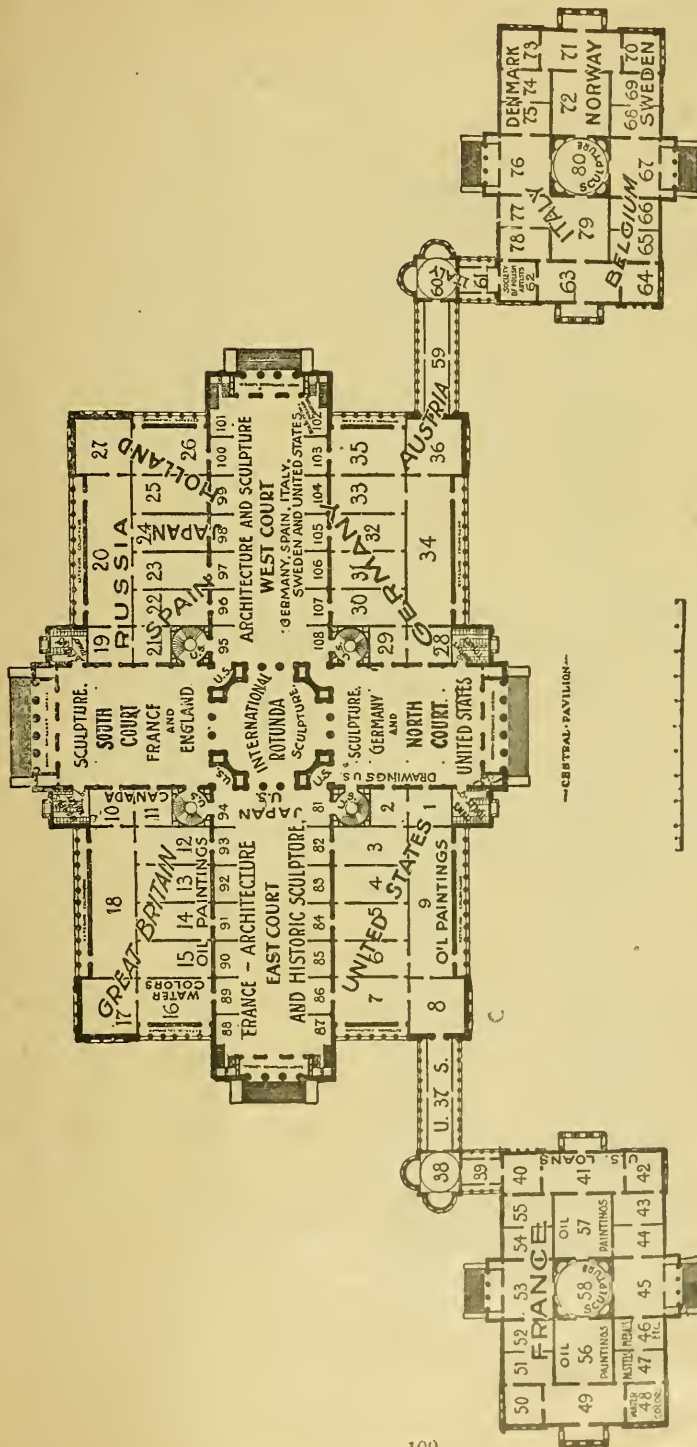

NORWAY:—Sculptures and **Oil Paintings** in galleries 71 and 72 West Pavilion. **Drawings, etc.,** in upper floor alcove 156, at the West end of the West Court, Central Pavilion.

RUSSIA:—Sculptures, **Oil Paintings and Water Colors** in galleries 19 and 20 in the South-west quarter of the Central Pavilion.

SOCIETY OF POLISH ARTISTS:—**Oil Paintings** in gallery 62, West Pavilion, in third floor gallery at the West end of the West Court of the Central Pavilion, and along the staircases in the West end of the West Court.

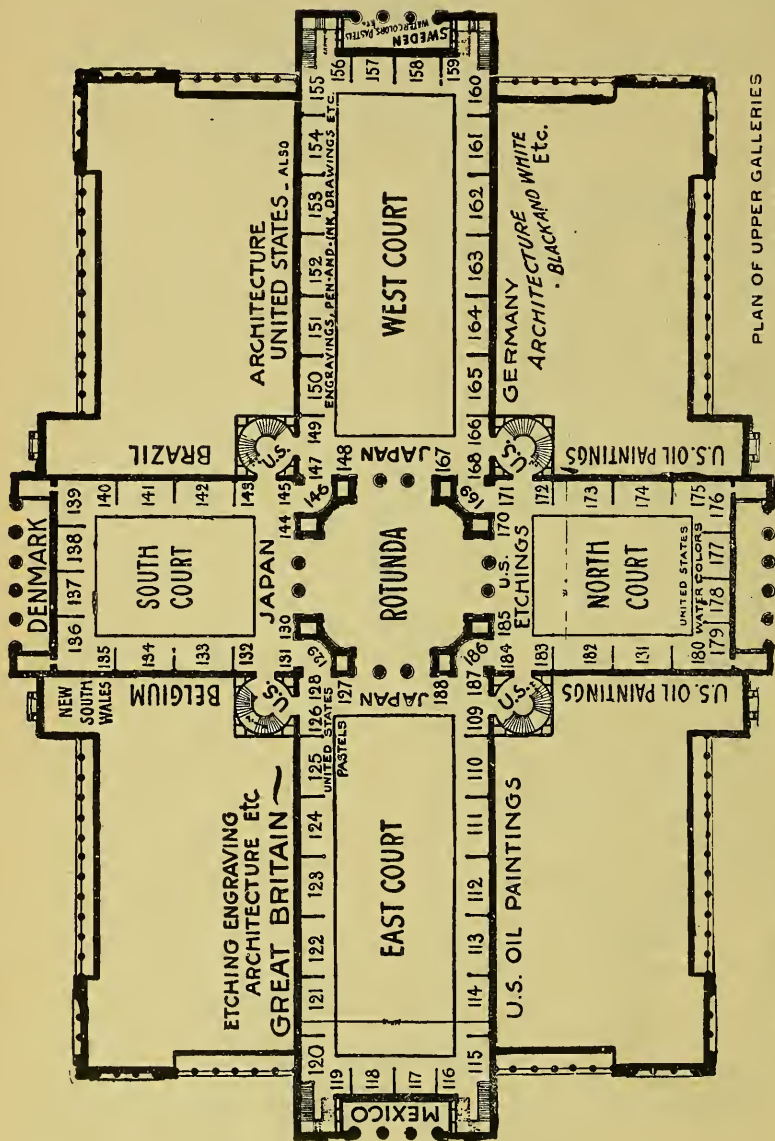

SPAIN:—Sculptures in the West Court, in galleries 21, 22 and 23, in the South-west quarter of the Central Pavilion. **Oil Paintings** in galleries 21, 22 and 23. **Water Colors, Pastels, Drawings, Engravings, Etchings, etc.,** in alcoves 96 and 97 West Court, Central Pavilion.

SWEDEN:—Sculpture in the West end of the West Court, Central Pavilion, and with **Oil Paintings** in galleries 68, 69 and 70 West Pavilion. **Water Colors, Pastels, Drawings, Etchings, etc.,** in the second floor alcoves at the West end of the West Court, Central Pavilion.

Manufactures and Liberal Arts

LOTTING AND WISE
OF LEECH & CO CHICAGO

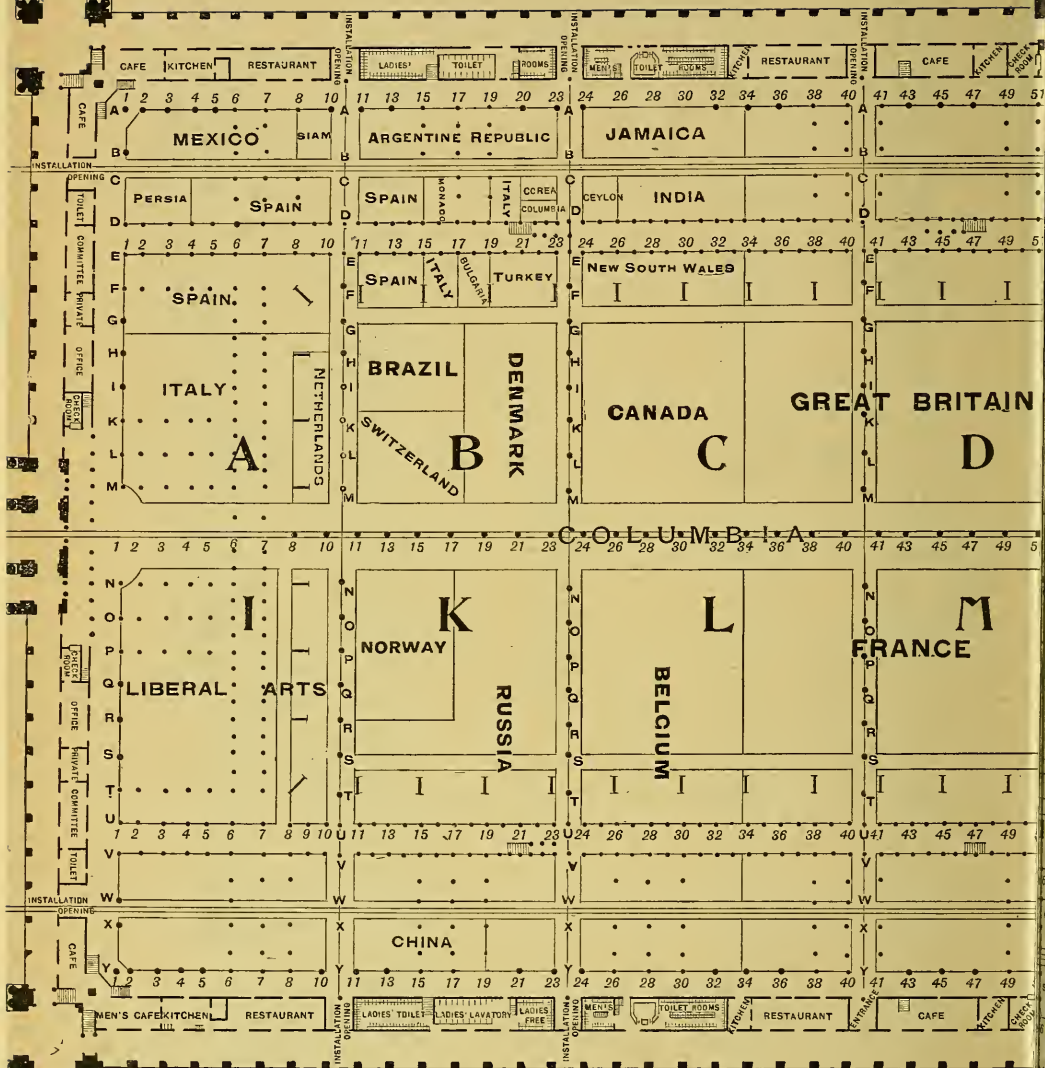

LIBERAL ARTS DEPARTMENT.

HOW TO FIND EXHIBITS.

The Liberal Arts Department has no building of its own, but occupies the whole of the gallery space in the Manufactures and Liberal Arts Building except sections F and G and also has allotted to it section I in the southeast corner on the main floor where all musical instruments are installed. The sections in the gallery are lettered from A to K, for the purpose of locating exhibits. The gallery columns are numbered from south to north, or lengthwise with the building; from 1 to 108, and the cross columns from east to west are lettered from A to Z, west to east. The letter and number following an exhibit in the catalogue indicate the intersecting point of the column lines nearest the exhibit. The location sign, "Gal. A, F-19," means that the exhibit is in section A at the point where column F and column 19 meet.

A reference to the diagram will show that the Education Exhibit covers the whole of section K and nearly all of sections A and I. Each exhibit has a number on the diagram. These numbers appear opposite the exhibitors' names in a special index of the education group with exhibitors' names, addresses and locations on page 9 of the Liberal Arts catalogue. Group 147 of the classification, which relates to "physical development, training and condition, and embraces the Bureaus of Hygiene and Sanitation and Charities and Correction, has all its entries installed in sections E and F of the Anthropological Building. Instruments and apparatus of medicine, surgery and prosthesis are located in sections D and E of Manufactures and Liberal Arts Building. Literature, books, libraries, journalism, engravings, etc., are in the same sections. Instruments of precision, experiment, research and photography and also photographs, etc., are confined to section E. Civil engineering, public works and constructive architecture, together with commerce trade and banking have, with two or three exceptions, their exhibits in section E. Religious organizations and systems, with their statistics and publications are, with four exceptions, in section D. As before stated, music and musical instruments are installed in section I of the main floor. The exhibits of Great Britain are in section B; of Germany, in section C; of France, in H, and the remainder of the foreign countries are installed in section D.

Copyrighted 1893, by THE WORLD'S COLUMBIAN EXPOSITION for the exclusive use of W. B. CONKEY CO.

ANTHROPOLOGICAL
BUILDING.

COPYRIGHTED 1893
BY W. B. CONNELL & CO. CHICAGO

ANTHROPOLOGICAL BUILDING.

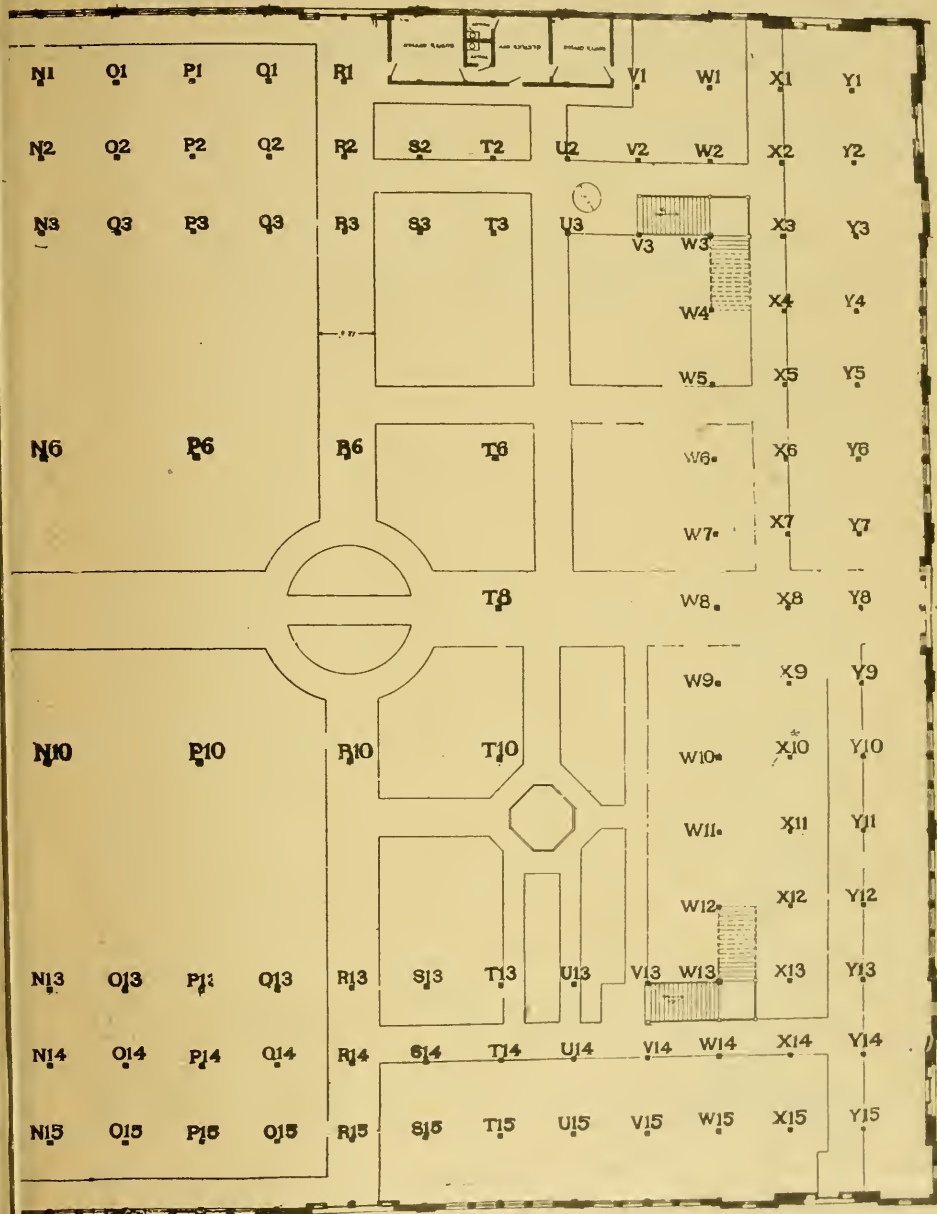

HOW TO FIND EXHIBITS.

For the purpose of installation of exhibits in this building the main floor is divided into six sections, lettered respectively A, B, C, D, E and F. The columns are both lettered and numbered. Running from north to south appear the letters A to Y, and from east to west 1 to 15 are given. With the exception of sections E and F, which are occupied by the Liberal Arts Department for the Bureaus of Hygiene and Sanitation and Charities and Correction exhibits, the whole of the space in the building is devoted to the Department of Ethnology and its requirements. In this building the location of exhibits is very easy of accomplishment. The letter and figure following an entry in the catalogue mark the column nearest to the exhibit. For instance, P-10 indicates that the exhibit is on the main floor in close proximity to the column bearing that letter and number. Several foreign countries, state boards and individuals occupy the floor in conjunction with the Ethnological Department, with its collections made for the Exposition. Among the first named may be mentioned Greece, with its exhibit forming the central group in the hall. Beyond the Greek court, going south, are exhibits from Vienna and Berlin, the Egyptian exhibit of Armand de Potter and the Japan exhibit. On the west side of the building Asia, Africa and the Pacific Islands are located. At H-13, still on the west side, will be found the exhibit of New South Wales. On the east side of the main aisle are the archaeological and ethnological exhibits of Canada. Farther south, on the east side, will be seen the state collections of Ohio, Missouri and Colorado, together with New Mexico, Wisconsin, Michigan, Illinois and several other states. At O, P, Q-10 is installed Mexico, and in the neighborhood Costa Rica and several republics of Central America. Not far from these exhibits are located the collections from Ecuador, Chili, Peru and Bolivia. In this vicinity British Guiana, Paraguay and Brazil have their exhibits, and at R-1, R-15 and P-13 are the various exhibits in the Ancient Religions, Games and Folk-Lore section. In the gallery, where the same system of installation is observed as on the main floor, are the Anthropological Laboratories, several state exhibits and some of the more interesting and important individual ones.

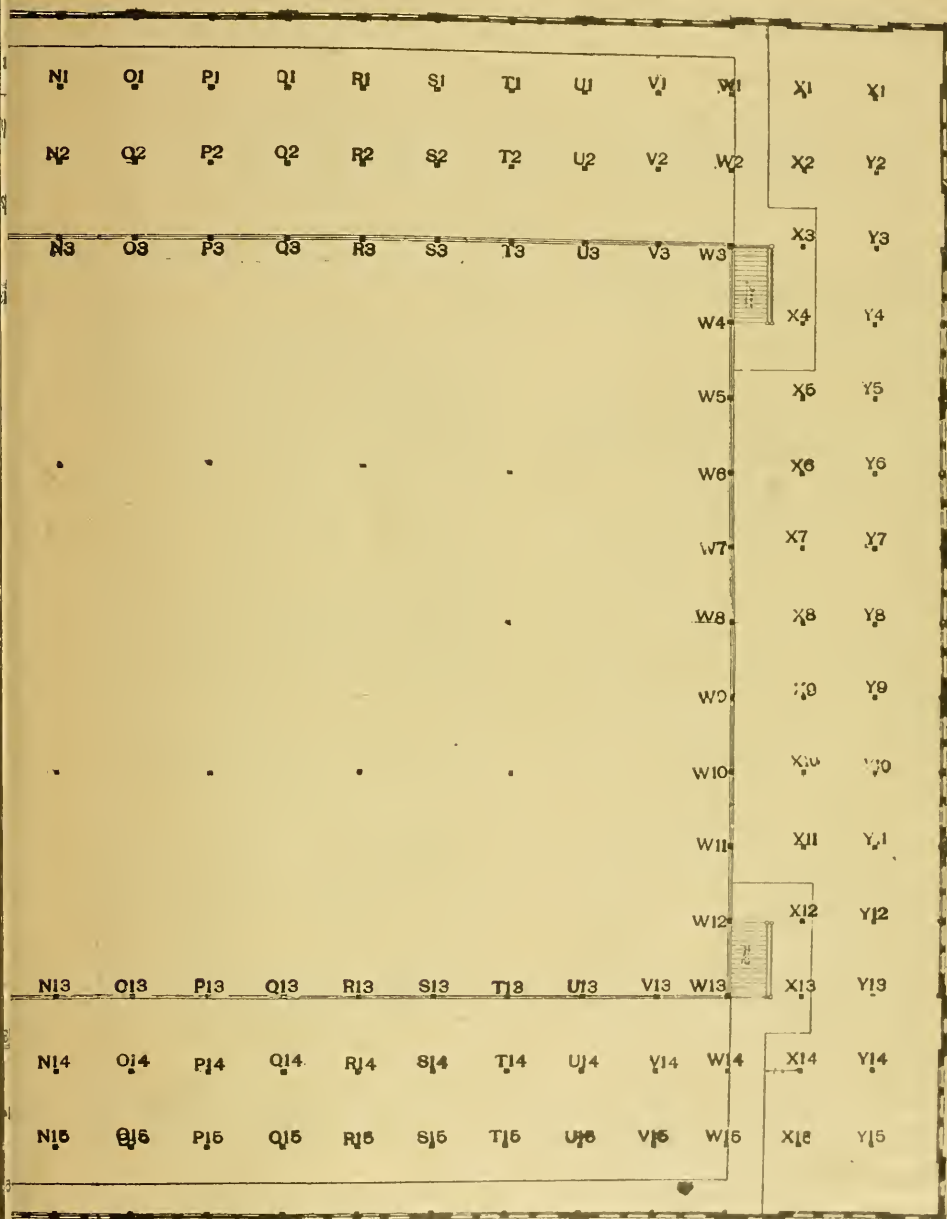

KEY TO INSTALLATION.

The Department of Ethnology occupies all the space in the Anthropological Building except E and F in the southern end of the main floor. These are occupied by two divisions of the Liberal Arts Department—the Bureau of Sanitation and Hygiene and the Bureau of

Charities and Corrections. The sections on the main floor are lettered from A to F, and the columns on the main floor and in the gallery are lettered from A to Y, north to south, and numbered from 1 to 15, east to west. The letter and number following an exhibit in the catalogue marks the column nearest to the exhibit. The sign "Floor, J-6" indicates that the exhibit is on the main floor near the column J-6.

99. Drum and sticks; Macquari whips; Tiberi whip; pan pipes; rubber balls; imitation fiddle; puzzles; Æolian harp, made from the leaf stalk of the Eta palm; spinning tops made of palm seed and of double seeds of Sapota.
104. Mixed collection, including pottery, ochreous matter, human bones, fish bones, shells, stone implements, taken from the kitchen midden or shell-mound at Cabacaboori.

GREECE.

Location—H, M, 9-11.

Casts Exhibited by the Greek Government.

Archaic Sculptures.

- Exhibit No.
1. Relief from the Lion Gate at Mycenæ. This relief, perhaps the most ancient work of sculpture in Greece, is still in position over the lintel of the principal gate of the citadel of Mycenæ.

Sculptures of the Fifth and Fourth Centuries, B. C.

19. Large bas-relief, found at Eleusis and representing the goddesses especially worshipped there, Demeter (Ceres) and Persephone (Proserpina), with the young Triptolemos between them.
- 66-69. Colossal sculptures found at Lycosoura in Arcadia; a female head wearing a veil, another female head, a male head, and a large piece of drapery ornamented with figures and decorative patterns in relief. These fragments belong to a group of four statues, which stood in the temple of Despoina (Persephone), and which represented Despoina, Demeter, (Ceres), Artemis (Diana) and the Titan Anytos. The sculptor was Damophon, a Messenian artist, who flourished toward the middle of the fourth century.
78. Grave relief, found near Athens, representing two women, a bearded man and a young girl.

Sculptures of the Hellenistic and Roman Periods.

93. Colossal statue of Themis (Justice), found at Rhammus in Attica. It is the work of one Chærestratus, who lived about the beginning of the third century, B. C.; one of the most important sculptures of the National Museum at Athens.

ISOLATED EXHIBITS.

MIDWAY PLAISANCE.

- 1a. Bulgarian Curiosities, E. S. Yovtcheff, Concessionaire. Sale of Bulgarian curios. Admission free.
2. Irish Industries Exhibit. President, the Countess of Aberdeen, Irish Village. Exhibit of Irish industries. Admission, 25 cents.
- 2a. Colorado Gold Mining, R. A. Campbell, Concessionaire. Model showing the working of a gold mine in Colorado. Admission, 10 cents.

87. South Dakota State Building, Thos. H. Brown, Secretary.

FORESTRY

FORESTRY BUILDING.

HOW TO FIND EXHIBITS.

The installation plan adopted in the Forestry Building is a very simple one and easily understood. The building is laid off into four divisions: A, B, C and D. Each of these divisions contains sections numbered from 1 to 15. In the southeast quarter is A, in the southwest quarter C, in the northeast quarter B, and in the northwest quarter D. A sign such as A-13 in connection with a catalogue entry means that that exhibit is located in close proximity to section 13 in division A. The individual United States exhibitors are all installed in sections A and C in the south end of the building and in nearly every instance the exhibitor's name appears on the diagram, so that his location can be easily ascertained. The foreign countries and individual states are scattered throughout the building, but, as the name of each country and state is plainly distinguishable on the diagram, no time can be lost in placing the exhibit. The collection of the "Woods of the World" forms the center piece of the building, and midway on the east side will be found the "Southern Pine Vestibule."

THE GOVERNMENT BUILDING.

HOW TO FIND EXHIBITS.

In this building are installed the Government Exhibits represented by the following departments: Agriculture, Interior, Justice, Postoffice, State (including the Executive Mansion), Treasury and War. Also the Colonial Exhibit collected by the Woman's Columbian Exposition committee of Massachusetts, the exhibit made by the Smithsonian Institution and National Museum, and that of the United States Fish Commission. A reference to the diagram will show the location of each of the above named sections, with the exception of the Colonial Exhibit, which will be found in the Rotunda, and the display of the Navy Department, the whole of which is installed on board the model battleship "Illinois." The various bureaus, divisions, and sections of the departments are plainly marked on the diagram, and each of the great divisions are clearly indicated by dotted lines.

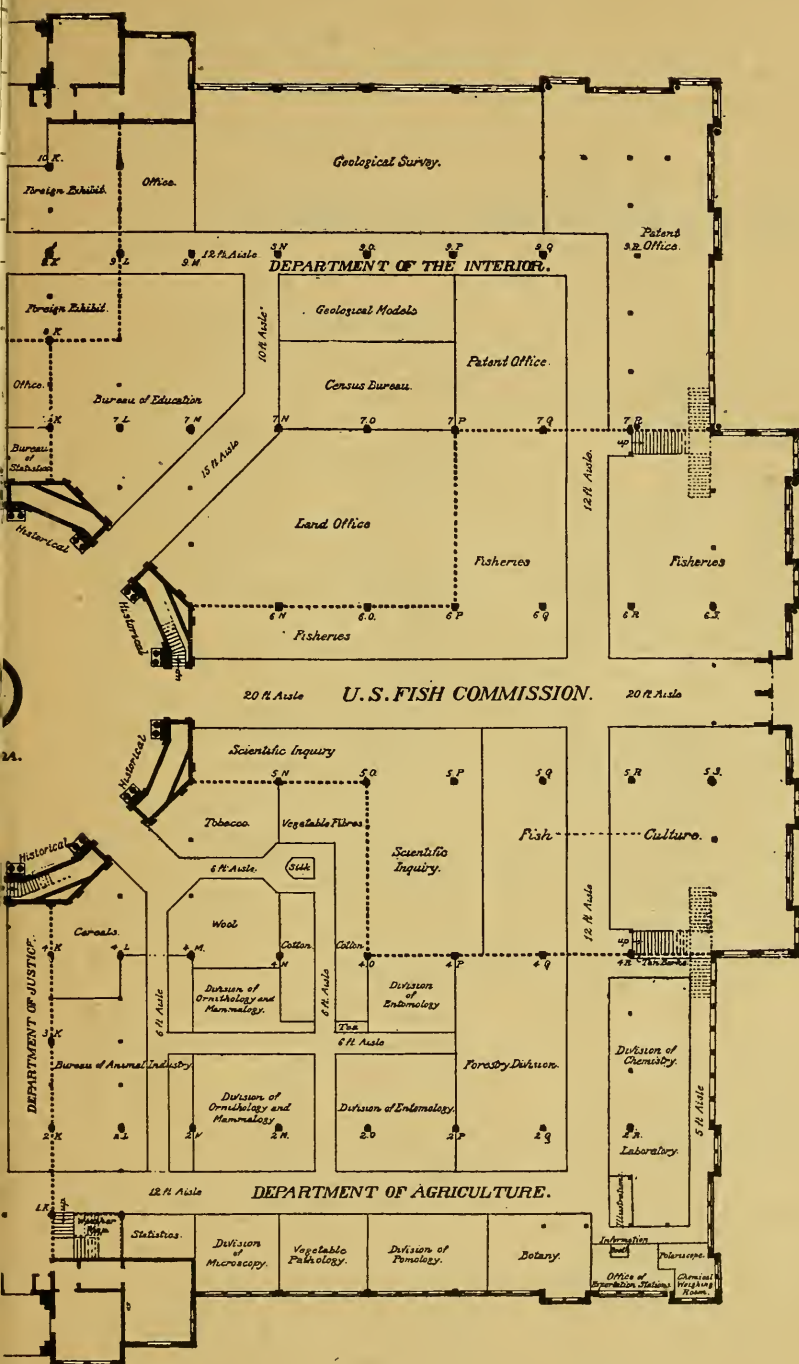

An exhibit of the resources of Alaska is to be found in the north gallery, to be reached by the stairs near post 7-R. An exhibit of the supervising architect's office of the Treasury and of postage stamps under the Postoffice department is in the south gallery and can be reached by the stairs at post 7-B.

The Commercial Exhibit made by the Department of State is to be found in the east gallery, the stairs at post 1-I and 1-K leading to it.

13. Hatching Apparatus. Models and specimens.

THE COLONIAL EXHIBIT.

Collected by Woman's Columbian Exposition Committee of Massachusetts. Exceedingly interesting.

Womans Building

(Copyrighted 1897. A. ZIESE & CO. Chicago)

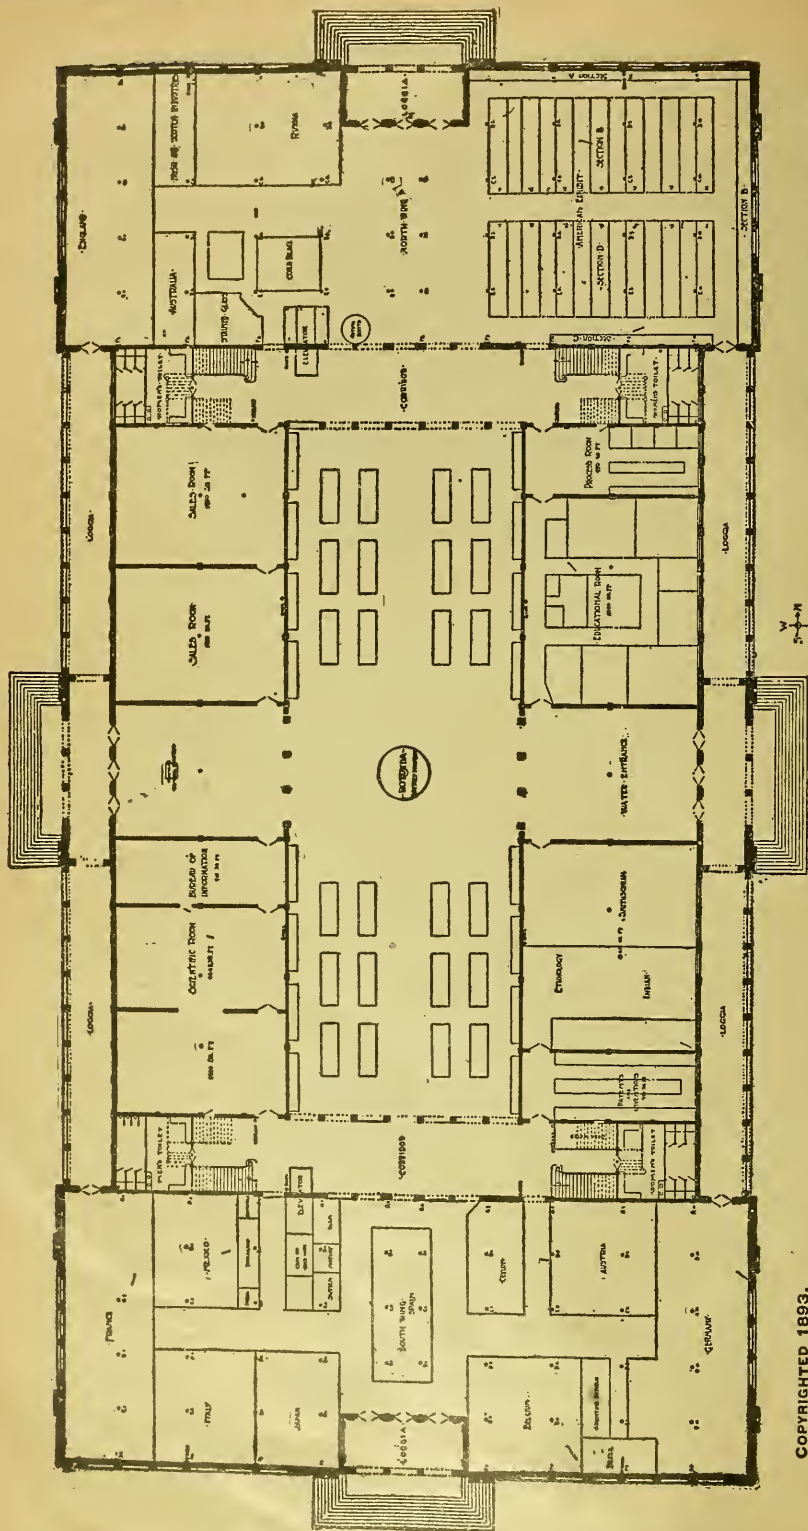

WOMAN'S BUILDING.

HOW TO FIND EXHIBITS.

The Rotunda of the Woman's Building occupies the center of the lower floor, and on its walls are hung a large portion of the paintings exhibited by this and other countries, the balance being distributed through the various smaller rooms and exhibition spaces. The floor is occupied by about forty cases, in which are displayed examples of the work of women. Most of the statuary will be found here. Connected with the rotunda are the north and south wings, the whole of the latter and a portion of the former being devoted to exhibits from foreign governments. The eastern portion of the north wing is occupied by the United States. The posts in these wings are lettered from north to south from A to F, and numbered from west to east from 1 to 10. Thus, the posts in the northwest corner of each wing are marked A-1, and those in the southeast corner, F-10, and these letters and numbers are used in the catalogue to designate the location of spaces devoted to the various foreign governments and to individual exhibits in the United States section, as far as possible.

East of the Rotunda are the Process and Educational rooms, north of the eastern vestibule, and the Ethnological and Inventions rooms, south of it. All of these, as well as that devoted to Science, on the opposite side, are filled with exhibits, the general character of which is indicated by their titles.

The southeast corner of the Gallery is occupied by the Board room and the offices of the Board of Lady Managers. The former is open to the public when the board is not in session and contains many works of art. The remainder of the south gallery is devoted to the Organization room, in which over fifty philanthropic and religious societies, clubs and educational establishments have been given space for the reception of their friends and the display of banners, statistics, etc. Passing north from the southwest corner of the gallery will be found the Exhibit room, devoted to a part of the overflow from the United States section, the British Nursing Exhibit room, Record room, New York Library room, another Record room, the Connecticut room (devoted to the use of the Foreign Commissioners) and the Committee room. The Record rooms are filled with statistics of woman's progress throughout the world. The library contains most of the books and pamphlets on exhibition in the building, its title only indicating that its decoration and the care of its books are a contribution from the state of New York. In the northwest corner of the gallery is the Model Kitchen.
